HOROSCOPE

FEBRUARY 17 - FEBRUARY 23 2018

ARIES • (Mar. 21 - April 20)

Get them to pitch in, if you need help. You can make a huge difference to children if you are able to put yourself in their shoes. You must be careful not to ignore the needs of the youngsters in your family. Your temper could be short if someone criticizes your efforts.

TAURUS • (Apr. 21 - May 21)

Don't make large purchases or investments. Your temper could get the better of you if you confront personal situations. Concern yourself with legal matters and formulating contracts rather than finalizing your objectives. Look into attending seminars that can expand your perception.

GEMINI • (May 22 - June 21)

Don't hesitate to visit someone who hasn't been well. You need to get out and challenge yourself. Your partner may be somewhat irritable this week. Your ability to visualize will help you convince others of the possibilities.

CANCER • (June 22 - July 22)

Spend time by yourself to avoid any conflicts with family members. You don't want to give anyone fuel for the fire. You will be able to work in fine detail and present the best possible proposal. Don't overspend or give too freely to others.

LEO • (July 23 - Aug 22)

Take matters in hand when it comes to dealing with clients or colleagues. You can pick up additional responsibility that will lead to higher wages and a better position. There's a good chance that they won't come back. Avoid functions that will bring you in contact with those you find difficult to get along with.

VIRGO • (Aug. 23 - Sept. 23)

Your passionate mood will be well received by your mate. You can ferret out secret information if you just listen to what others have to say. Your creative talent will prove to be lucrative if put to proper use. Minor health problems may lower your vitality.

LIBRA • (Sept. 24 - Oct. 23)

Learn some new skills that will increase your income. Visitors may drop by unexpectedly, resulting in tension with your lover. Tips will be enjoyable, and communication with your lover will clear up any misconceptions. You are best to concentrate on work.

SCORPIO • (Oct. 24 - Nov. 22)

Get involved in the activities of children. They will teach you far more than you expect. They didn't fully understand what was expected. Unexpected bills may set you back. Your involvement in organizational events could open doors to new and exciting opportunities.

SAGITTARIUS • (Nov. 23 - Dec. 21)

Get the whole family involved in a worthwhile cause or cultural event. Sort situations out as best you can. Watch your spending habits. The battle continues. Don't blow situations out of proportion.

CAPRICORN • (Dec 22 - Jan. 20)

Make sure that you take time to remember those you love. Groups you belong to will not only enjoy your company, but they will also share your interests. Sudden changes regarding your circle of friends could prove interesting and stimulating. You can't live your life for others.

AQUARIUS • (Jan. 21 - Feb. 19)

They won't get away with it. Don't be too quick to respond to a plea for help. Trips, educational pursuits, or projects that could lead to new outlooks should be on your agenda. Don't blame every thing on your mate.

PISCES • (Feb. 20 - Mar. 20)

Don't be afraid to lay your cards on the table. Don't be disappointed if you don't get your way emotionally. You can make new friends who could turn into intimate connections if you join clubs or take creative courses. You must not allow them to force you to rush.

TRACES OF EUTHANASIA DRUG FOUND IN PET FOOD

Submitted By
Patsy Nelson

One thing I have repeatedly told my readers is that many commercial dog food brands cannot be trusted as far as the ingredients they use to make their foods. Many ingredients come from questionable places, perhaps long journeys in railroad cars through various temperature changes and hazardous conditions. I have also said that many even use euthanized animals, which not only contain diseased parts, but the drug which ended their lives. And there might even be admirable companies, who have used facilities shared by disreputable companies, and thereby had their own product compromised. One such company, which had a voluntary recall-over a year ago, because the levels of vitamins and minerals in some of their canned food did not meet their standards, have now purchased and are operating their own canning plant. The companies that are brokering for the carcasses of destroyed animals to put in their dog food, are breaking the law. The lethal drug, pentobarbital, commonly used to euthanize dogs, cats, and some horses, is never allowed to be part of the food supply. Susan Thixton, a pet food advocate who has been an authority on the pet food industry for decades, writes, "Pet food violates federal law, is openly allowed by the FDA to violate Federal law, billion dollar a year companies are making a profit selling illegal adulterated products to unknowing consumers in the US every day." Adulterated ingredients, like an animal "which has died otherwise than slaughter" are illegal in food for humans and animals. Ellipse Analytics, a lab that specializes in testing food for contaminants, tested 62 samples of wet dog food, across more than 24 brands. After many months of testing and retesting the one company that consistently came up positive for the use of pentobarbital, was Gravy Train. Gravy train is made by Big Heart Pet Foods and is owned by Smucker's and accounts for over \$40 million of their annual revenue. Big Heart Brands also makes Meow Mix, Milk Bone, Kibbles'n Bits, 9 Lives, Natural Balance, Pup-Peroni, Nature's Recipe, Canine Carry Outs, Milo's Kitchen, Alley Cat, Jerky Treats, Meaty Bone, Pounce and Sausages. Although their website claims that they use "high-quality food" that meets "rigorous evaluation and testing requirements," one can only wonder what else we need to question.

3. IT'S POTHOLE SEASON: YOU MAY BE IN FOR A BUMPY RIDE
As winter winds down and weather gets warm, motorists will see more potholes on the roadways and avoiding them can be a real challenge. If you hit a pothole, watch for three warning signs to determine if your vehicle has been damaged.

- Loss of control, swaying when making routine turns, bottoming out on city streets or bouncing excessively on rough roads are indicators that the steering and suspension may have been damaged. The steering and suspension are key safety-related systems as they largely determine your car's ride and handling.
- Pulling in one direction and uneven tire wear are symptoms of an alignment problem. Proper wheel alignment helps ensure safe handling.
- Low tire pressure, bulges or blisters on the sidewalls, or dents in the wheel rim will be visible and should be checked out as soon as possible.

If you feel your vehicle has suffered damage from hitting a pothole, have it inspected by a professional. Potholes occur when water permeates the pavement – usually through a crack – and softens the soil beneath it, creating a depression in the surface of the street. Many potholes appear during winter and spring months because of freeze-thaw cycles.

Because hitting a pothole can put a big dent in your wallet, making necessary repairs right away could save you from more costly ones down what could be a very bumpy road. For more information, visit www.carcare.org.
