HOROSCOPE

APRIL 11 - APRIL 17, 2018

ARIES • (Mar. 21 - April 20)

Uncertainties regarding relatives will make situations uncomfortable if you attend a family function. Delve a little deeper if you really want to know the score. Travel will be fun and entertaining. Property investments will payoff.

TAURUS • (Apr. 21 - May 21)

You may have difficulty trying to get your mate to understand your position. You will meet some interesting people if you attend promotional functions. Children will want to help, too. The existing problems must be dealt with one way or another.

GEMINI • (May 22 - June 21)

You will be looking for creative ways to make a little extra cash. Your flair for dramatic appeal will unleash itself at social functions. This is probably causing upset and confusion on the home front. You can have quite the romantic adventure if you take time to get to know your mate all over again.

CANCER • (June 22 - July 22)

Depression may be likely if you're away from home. Partnerships with creative people could lead to financial gains. Your emotions are soaring and if you don't get your way, look out world. You mustn't give too much to your children.

LEO • (July 23 - Aug 22)

Take special care in any home improvement project you work on this week, you'll be glad you did. Make alternate plans just in case you need to make a career shift. Residential moves should be considered carefully. Don't let your emotions get out of hand.

VIRGO • (Aug. 23 - Sept. 23)

Be careful what you consume this week. Be inquisitive about unfamiliar circumstances. Problems with ear, nose, or the throat are likely. Do not yield to children or relatives when they really don't deserve it.

LIBRA • (Sept. 24 - Oct. 23)

You will have original ideas for ways to make extra money. Hard work will not go unnoticed. Mishaps due to preoccupation will be upsetting. Be an observer before getting involved.

SCORPIO • (Oct. 24 - Nov. 22)

Don't give your heart too readily. Your creative input will be appreciated by your boss. You can make personal changes that will enhance your appearance and bring about greater social activity. Don't overspend to impress others.

SAGITTARIUS • (Nov. 23 - Dec. 21)

You will be extremely sensual; take precautions and don't take any risks. Be very careful while in transit or while traveling in foreign countries. There is not much you can do to alleviate the problem, but consider putting some extra work into your house. You'll have great insight.

CAPRICORN • (Dec 22 - Jan. 20)

Your stubbornness coupled with your mate's jealousy don't make for a favorable time. Be careful what you consume this week. To avoid any minor health problems, don't get too stressed. You will not be able to contain your emotions this week.

AQUARIUS • (Jan. 21 - Feb. 19)

Your lover may feel rejected. Money problems will get worse if your partner hasn't been playing by the rules. You won't have much time for your mate this week. Compromising could be on the agenda this week.

PISCES • (Feb. 20 - Mar. 20)

You may want to get involved in some kind of creative group. Most partner problems are a result of both people not living up to their promises. Be careful not to misplace your wallet or belongings. Unforeseen changes in your location are apparent.

FLEA AWAY

Submitted By
 Patsy Nelson

Unfortunately at The Wagging Tail it is not feasible to carry every single item that is available for cats and dogs. However, we strive to satisfy every need with a carefully chosen, quality solution. We listen to our customers' feedback and suggestions, something corporate-owned stores often do not have the authority to do. Thus, when a customer asked if we could start carrying a product called Flea Away, I did some research and was quite impressed. I had a lengthy phone conversation with the owner last night and she emailed some pertinent information which I would like to share with you.

Flea Away is an ALL-NATURAL flea, tick and mosquito repellent which is sourced and manufactured right here in the USA. It is also an all-around supplement which helps in reducing shedding, clearing up allergic dermatitis and supporting strong hips and joints. It takes an initial thirty days to completely penetrate the dog or cat's system. It gives off an odor, not apparent to humans, but definitely abhorrent to insect predators. Unlike most other flea and tick control products, the pests do not bite the pet. Nearly 80% of all dogs are allergic to the saliva of a flea and can get serious illnesses from ticks and mosquitoes.

Flea Away is a liver flavored treat - the liver is from grain fed non-steroid injected cows - so it is all-natural from beginning to end. It is recommended as a daily supplement and a bottle will last the average dog three months and ten days. Because of the live enzymes, it must be stored at room temperature.

Flea Away appears to be an excellent alternative to, or addition in conjunction with, other flea and tick control methods... and with so many added benefits for the health of your pet! For more product information and lots of great testimonials, visit www.fleaaway.com.

We are excited to announce that Flea Away will be available at The Wagging Tail (337 Route 9 in Cape May) starting Friday, April 13th.

Better Driving Habits Help Family Finances and the Environment - Part 2
by Tony Molla

-Continued from Last Week-

- Keep tires properly inflated and aligned. If your air pressure is low, you force the engine to work harder and burn more gasoline. Tires that are misaligned also make your vehicle work harder. Consider, too, that poorly maintained tires wear out faster, which means more discards have to be scraped, recycled, or sent to the landfill.
 - If weekend car tinkering is not your idea of fun, find a dependable ASE-certified technician. Ask friends for recommendations. Check the reputation of the repair shop with your local consumer group. Check out the technician's specific credentials. ASE-certified auto technicians are tested for specific skills and knowledge in national exams, such as engine performance, brakes or suspension.
 - Have your vehicle's air conditioning system serviced only by a technician qualified to handle and recycle refrigerants. Older systems contain ozone-depleting chemicals, which could be released into the atmosphere through improper service. If you have used any over-the-counter remedies such as system sealants or self-service refrigerants, let the technician know prior to servicing the vehicle.
 - Avoid speeding and sudden accelerations. Both habits guzzle gas and put extra wear-and-tear on your vehicle's engine, transmission, steering and suspension system, and other components. Use cruise control and anticipate traffic patterns ahead. As a side benefit, your brakes will last longer, too.
 - Consolidate daily errands to eliminate unnecessary driving. When waiting for friends or family, shut off the engine. Park in a central location at the shopping center, and walk from store to store, rather than drive from one end to the other.
 - Remove excess items from the vehicle. Less weight means better mileage. Remove that roof-top luggage carrier after vacations to reduce air drag.
- While there is no single vehicle that's ideal for every lifestyle, regular car care and gentler driving lets you maximize gas mileage for your particular make and model — saving you money and helping the environment.
