WILDWOOD EVENTS

National Marbles Tournament ~ June 19th-22th

Champion marble shooters from across the country will gather in the Wildwoods to compete in the 94th Annual National Marbles Tournament Monday, June 19 through Thursday, June 22 - all vying for the title of "King" and "Queen" of Marbles.

Players selected from local tournaments held in cities throughout the United States will unite in the Wildwoods for four days of serious marble competition and fun on the island's award-winning beach and nationally recognized boardwalk. The "Mibsters," boy and girl marble players ages 8-14, will compete for national honors, college scholarships and many other prizes and awards during the annual tournament.

More than 1,200 games of marbles will be played throughout the tournament at Ringer Stadium, located on the beach at Wildwood Avenue in the Wildwoods, with the top eight shooters advancing to the semi-finals competi-

tion. The top two male and top two female players will compete in a 'Best of 15' series for the championship. The victorious male and female will literally be crowned King and Queen of Marbles as the victors of the tournament, and as part of the tradition, the male winner will give a congratulatory kiss to the cheek of the winning female.

The marbles game in which competitors will participate is called Ringer. It is played by placing 13 marbles in the form of an "X" in a 10-foot circle, with players then alternating shots to knock marbles out of the ring. The winner is the individual who is first to shoot seven marbles out of the ring.

The 94th Annual National Marbles Tournament will take place from 8am-12pm daily and is FREE for spectators.

For info, visit www.NationalMarblesTournament.org or call 304-337-2764. For information about the Wildwoods, visit www.WildwoodsNJ.com or call 800-992-9732.

WILDWOOD EVENTS

Maritime Festival June 17-18

The 8th Annual Wildwoods' Maritime Festival will be held at the historic Hereford Inlet Lighthouse on Saturday, June 17 from 10am-5pm and Sunday, June 18 from 10am-4pm. The 1874 Gothic-style beacon is located at 111 N. Central Ave in North Wildwood, NJ.

The festival will highlight New Jersey's rich maritime history - dozens of artists and crafters from around the country are expected to exhibit as well as numerous non-profit marine and historical organizations. Tours of the 19th-century lighthouse and award-winning Victorian English Gardens will also be available for a fee of \$6 for adults and \$3 for children under 11 years old.

There will be a children's activity area, delicious festival food, and a family-friendly pirate show available both Saturday and Sunday beginning at 10am in the parking lot. Also, Daniel Lapidow, the Hebrew Hammer Blacksmith, will be giving demonstrations all weekend at 10am.

Historical organizations featured throughout the festival will include The Cape May Maritime Museum, The Delaware Bay Lightkeepers & Friends, The Ocean City Life Saving Station, The Cape May County Historical Society, The Tatham's (Stone Harbor) Life Saving Station, The Mid-Atlantic Center for the Arts, and The New Jersey Maritime Museum.

Award-winning authors will also be on hand for book signings including Deborah Whitcraft and Gretchen Coyle (Inferno at Sea and Tuckers Island); Hal Taylor (The Illustrated Delaware River); Lee Ireland (America's Pirates and their Hidden Treasures); Steve Murray and Donna Elias (To the Lighthouse!); and David Veasy (New Jersey Then and Now) The festival will be held rain or shine and admission is FREE

3. Don't Let Tires Flatten Your Summer Travel Plans

Getting a flat tire is no fun for anyone at any time, especially on vacation. To keep your summer road trip rolling along, the non-profit Car Care Council recommends a quick tire check before you leave the driveway. "The excitement of summer vacation quickly deflates when your car has a flat tire," said Rich White, executive director, Car Care Council. "A quick four-step tire check will help you to avoid the aggravation of changing a flat tire on the side of the road."

1. Check that all tires, including the spare, are inflated to recommended pressure levels.
2. Check tire tread depth with a simple penny test - if you see Lincoln's head above the tread, then it is time for new tires.
3. Check for irregular wear as uneven wear indicates a need for wheel alignment.
4. Check tires for cuts, bruises, bulges, bald spots or other irregularities that can lead to a flat tire.

"AAA expects to get calls from over seven million stranded motorists this summer and a good portion of those vehicle troubles will be tire related," said White. "A comprehensive pre-trip vehicle inspection, including the tires, is the best way to alert you of any potential issues so you can address them before you leave home and keep your road trip on track."

For more information on tire safety and maintenance, visit www.ustires.org/safety. For service interval schedules, questions to ask a technician and other helpful auto care information, view the Car Care Council's free digital Car Care Guide at www.carcare.org/car-care-guide.

SEASONAL SAFETY

Submitted By Patsy Nelson

Bees, wasps, flies, mosquitoes, fleas and ticks are the most annoying and potentially dangerous pests affecting us and our pets. A bee or wasp sting can raise reactions in your pet from slight pain and swelling to anaphylaxis, a sudden severe allergic reaction that can be fatal if not treated immediately. Thinking of this reminds me of a local vet who was treating a St. Bernard for a bee sting and got the tip of his thumb bitten off. I was there and rushed him to the hospital.

Mosquitoes, besides leaving itchy welts, can transmit heartworm disease, which can be very expensive to treat, if not fatal. It is so important, especially here in South Jersey to get your dog on a monthly heartworm preventative.

Fleas have been increasing in numbers exponentially every year for the last thirty or more. We just have not had a sustained cold enough winter to help decrease their numbers. Some dogs seem oblivious to the presence of fleas, while others are sent into a frenzy of itching from the saliva of a single flea bite. Ingestion of a flea while biting or grooming that is carrying the larvae of a tapeworm will cause the dog or cat to get tapeworm. As the segments come out of the anus, they die and look like pieces of rice. Treatment for fleas (and ticks) involves an attack on three fronts: the pet, the house and the yard. If you use a monthly oral or topical solution for the pet, you can still spray the pet with a natural flea and tick product on a daily basis if you have concerns about walking off your property.

The Wagging Tail sells all of the above in addition to pet sunscreen. If you have your pet shaved and it spends much time in the sun, either in your yard or on your daily walks, you need to protect the newly exposed skin. Also spray is important for your dog's ears, nose and belling. Dogs can get sunburned and they are susceptible to skin cancer. Also spray your pet with fly spray and put fly-off ointment on the ears if your dog is outside for long periods as the flies will drive your dog batty and/or eat the flesh on the ears.

Most important, never leave your pet in the sun in a car, even with the windows slightly down. The temperature in a car can climb to more than 120° in less than ten minutes. Even if you think you are only going to be minute, it is too easy to become distracted... and that minute turns into an emergency or worse.

P.S. We will resume pet grooming a few days a week, beginning on Wed. June 14th. Thank you for your patience.
