HOROSCOPE

OCTOBER 13 - OCTOBER 19, 2022

ARIES (Mar. 21-April 20)

Take time to reevaluate your motives regarding friendships. Lend an ear to children; it can make a difference. Try to keep your cool; you may be a tad frazzled by all the rushing around. You will communicate easily and should be able to develop new friendships.

TAURUS (Apr. 21-May 21)

You will be relentless when it comes to getting yourself back into shape. You are best to do your research before taking on such a venture. Be careful that you don't overextend yourself. Sentimental feelings may make it difficult to get much done at work.

GEMINI (May 22-June 21)

Do not let in-laws upset you. Take action. Don't get upset. Be careful not to consume too many spicy foods, or minor health problems could put you out of commission for the day.

CANCER (June 22-July 22)

Emotional situations could bring out your stubborn nature. Get involved in groups and organizations that are of a distinguished nature. You can mesmerize anyone you meet with your cultured attitude and outlook. You will enjoy physical activities more than you think.

LEO (July 23-Aug 22)

Get ready to do some fancy footwork when it comes to taking care of your financial situation. Try to bend to their wishes if you want to avoid conflict. Sudden changes concerning coworkers may surprise you. You will find that unfinished projects at home will be most satisfying.

VIRGO (Aug. 23-Sept. 23)

Take a second look; another person's philosophy may be extremely different from yours. The emotional state of peers may cause a problem for you. You may not want to spend time around family or your home. Someone you like may be receptive and actively seeking your company.

LIBRA (Sept. 24-Oct. 23)

Self improvement projects should be your key concern. Be careful when dealing with female members of your family. You are best to avoid such unsavory circumstances, especially if you're in a group situation. Your fickle nature may cause jealousy.

SCORPIO (Oct. 24 - Nov. 22)

You need to spend time with friends and family. You may not be that popular at home but you should be able to shine at social gatherings. Assist a relative or good friend by setting of a budget for them. Make your intentions perfectly clear and find out exactly what is expected of you.

SAGITTARIUS (Nov. 23-Dec. 21)

A new relationship can be yours if you get out with friends. Erratic behavior may confuse others, and mood swings may result in isolation. Talk to someone with experience about budgets or consolidating debts. You will be a real chatterbox this week.

CAPRICORN (Dec. 22 - Jan. 20)

Take part in stimulating debates that will allow you to show off your intelligence. If it can make you extra cash, it will be even better. Be careful that you don't overextend yourself. You may need to lend an ear to an old friend.

AQUARIUS (Jan. 21 -Feb. 19)

You may become rundown if you take on too much. You can make changes to your domestic scene that will benefit all who reside there. Unexpected visitors are likely. Be prepared to do your chores early. Do not get involved in joint financial ventures.

PISCES (Feb. 20-Mar. 20)

Keep your eyes and ears alert for any evasive or deceptive statements. Take that long overdue vacation if you can. Things aren't as they appear. Opportunities to make financial gains will develop through your connections with other people.

HALLOWEEN HAPPENINGS IN CAPE MAY
 Now thru October 31

14th Annual Scarecrow Alley at the Physick Estate

The grounds of Cape May's original haunted house, the Emlen Physick Estate at

1048 Washington St., are transformed for the spooky season. Scarecrow Alley is a highlight of the estate's Halloween decorations. Walk the grounds and vote for your favorite ghoulishly gruesome or foolishly funny scarecrow. Free admission to the grounds. Visit capemaymac.org for info.

Graveyard Ghosts and Mansions Combo Tour
 Hear the stories and experiences of ghost activity in the 1879 Physick House Museum from the Cape May MAC tour guides who know them intimately. It starts with a trolley ride to the historic Cold Spring Presbyterian Cemetery to see the graves of Dr. Emlen Physick and his family. At the graveyard, you'll hear EVPs (electronic voice phenomena) recorded by tour guides and staff at the estate. On your return trip to the Physick Estate hear about some unusual Victorian Funeral customs. Then, inside the Physick House you will visit several rooms and hear several more EVPs while learning more about the activity observed there. Tour begins and ends at the Physick Estate at 1048 Washington St. For more information or to purchase tickets, visit capemaymac.org.

Don't Let The Light Go Down On Your October Fun

Tips for driving in the dark:
Headlight misalignment, dimmed brake lights and damaged lenses
• Are your headlights aimed correctly? The jarring roads of summer driving and newly formed potholes can knock your headlights out of kilter. They may need some minor adjustments to help you see the road better and keep them from blinding other drivers.
• Are your headlight lenses yellowed or cracked? Replacement headlights can dramatically improve brightness. Yellowed headlights may be restored depending on the amount of discoloration. Cracked lenses need to be replaced.
• Do you have any burned out bulbs? Newer vehicles tend to use LED headlights that can go for years without replacement. Other vehicles typically use halogen bulbs that burn out. Check all of your lights, front and rear.
• Consider replacement for bulbs more than two years old. They can lose as much as 20% brightness within two years, according to manufacturer estimates. New bulbs help other drivers see your vehicle and act as inexpensive insurance against accidents.
Windshield cracks, smears and fogging
• Do you have any cracks in your windshield? They can grow quickly as cold weather arrives. Not only do cracks impede visibility, but they also reduce occupant safety.
• Eliminate haze from your windshield, inside as well as outside to prevent glare. The thin film of contaminants inside your vehicle is caused by off-gassing from upholstery. Remove it simply with a microfiber towel and glass cleaner intended for vehicles.
• Fill your window washing tank with fluid before more rain and snow arrive.
• Replace wiper blades in early autumn. Summer heat and the sun's ultraviolet rays degrade blade performance, leaving your window a streaky mess. don't forget the rear blades on your SUV.
Heating and air conditioning problems
• Check coolant levels. A low level of radiator solution is one of the most common causes of inefficient climate control systems. The solution diminishes over time through evaporation, especially from summer weather.
• Ask about a coolant flush to replace worn out coolant/antifreeze solution. Heat and time break down the chemicals. The system needs to be cleaned and refilled periodically to maintain performance and prolong the life of parts. Mileage and time intervals vary by vehicle and type of driving.
• Clean vents to increase flow throughout the cabin. Vents clogged with dust, bugs, pet fur and leaves can reduce air flow.
Other October driving safety maintenance reminders
• Halloween night calls for extra caution for pedestrians and drivers. A study by the National Highway Traffic Safety Administration showed 126 fatalities from alcohol-related driving during the five-year period of 2015 through 2019. Fatalities among young pedestrians were four times higher on Halloween night than the same time period any other evening of the year, according to NHTSA data studied by the Centers for Disease Control and Prevention.
• Leaves on the wet road increase the chances your vehicle will slide. Tires are designed to handle precipitation, not a layer of cellulose between your tread and the asphalt.
• Keep an eye out for critters. They're on the move in early autumn and at dusk, especially deer migrating from higher altitudes. Scan the road shoulder and be prepared for sudden movement across the roadway.

PREPARING YOUR DOG FOR THE COLD WEATHER AHEAD

Submitted By
Patsy Nelson
from The Wagging Tail

I have seen plenty of "naked" dogs walking alongside their owners who are all bundled up against the cold winds of late fall and winter. (We have even dipped into the forties recently.) Your pet who lives in the house as part of the family does not have the opportunity to grow a winter coat. Or like my dogs, may have been just groomed and their coat is cut short, and are more exposed to the chillier weather. I can now, thank goodness, get a wrap harness on Ebby, which covers more of her body than a regular harness, and even a coat. Last fall and winter, which she was a relatively new rescue, she was very aggressive if I tried and I never did succeed with a coat or jacket, but I worked tirelessly over the past seven months to get her used to having her belly rubbed and having a harness put on to go for a walk with Zoey around the neighborhood which she loves immensely. It was an incentive for her to behave, aided by an occasional blast of STOP THAT, a corrector of naughty behavior. And I have begun to put a light Velcro closure coat on her.

Some people think their dog will be okay for the few minutes they are out in inclement weather. I challenge them to go out in the same uncomfortable weather in only a sweater! Even the Alaska mushers will cover their dogs and put boots on their paws, although they live outdoors, if the weather is more harsh than usual. If your dog is just going out to do his business, you might get distracted (cell phone) and he remains outside longer than is healthy. Older dogs or ones afflicted with joint pain are especially in need of added warmth. My pets like to curl up near the gas fireplace or lay on a self-warming bed or pad. Some people also think their dog is okay left in a cold car while they shop. Just like in the summer when a car can quickly heat up to lethal temperatures, a cold car can quickly become a refrigerator.

At The Wagging Tail we have beautiful weatherproof jackets and coats by Weatherbeeta at the same prices as last year. I still use ones I have had for over five years. They wear and wash great. They come in various weights-for dogs with little hair like Dobermans and Bulldogs, to dogs with some outercoat but no undercoat, or just to give you options on how to cover your dog depending on weather conditions. We carry sizes 10 to 32, and we just got in a new shipment of beautiful wool sweaters and Velcro-closure coats. We strive to keep our prices fair to your pocketbook while presenting you with real quality products.

We also sell, and have for years, the Gold Paw Series, which are very soft, stretchy tops that have openings for your dog's front legs and are extremely comfortable for dogs and cats to wear. I put one on our cat, Mystery, who almost drowned in our swimming pool last winter in an unfortunate accident. The Gold Paw fleece top kept him extra comfy while he recuperated. It is a coverup that's great for dogs who are not well, and especially for older dogs and ones with little or sparse coats. (See picture of Zoey wearing her mulberry plaid.) They are available in sizes 2-30, and if we don't have the color you prefer, we can special order. And our prices are better than online shopping.

We are so grateful for winning The Best Pet Store of the Jersey Shore, and for our wonderful loyal customers and for all the new ones who finally checked out our bright yellow (joy) building and were so glad that they had. It is quite surprising to newcomers to see our vast selection added to over the past 36 years-as of this month of October! Thank you again for helping to keep a small business in business.

Our recent group of kittens have found homes. We will have more for you to see and love this week.
