HOROSCOPE

OCTOBER 20 - OCTOBER 26, 2022

ARIES (Mar. 21-April 20)

You're in the mood to get out and visit friends. Your talents might just be discovered. Changes could be overwhelming. You will be entertained and intrigued by the logic foreigners possess.

TAURUS (Apr. 21-May 21)

Don't let them blame you. Don't avoid your true feelings. It is time to clear your decks. Be aware of any emotional deception. Do not sign legal contracts or documents this week.

GEMINI (May 22-June 21)

If you can't trust someone, question the connection. You should sign up for creative courses. Concentrate on your work. You are best to do something energetic with friends instead. Your ideas can be put into action.

CANCER (June 22-July 22)

You may find it impossible to get the rest you require. Don't let peers distract you or push their work your way. Your fickle nature may cause jealousy. You have so much to offer, open up and let your thoughts be known.

LEO (July 23-Aug 22)

You can pick up information that will give you an edge. Do yourself a favor and leave your plastic at home. Work at home if at all possible. Travel will be favorable. Resist overspending on luxury items. Your personal life will be under the gun and you may want to avoid the questions your lover is going to want to ask you.

VIRGO (Aug. 23-Sept. 23)

Someone envious of your popularity may challenge you to a debate. Don't hesitate to talk to your partner about rekindling your relationship. Focus your efforts on details, and keep to yourself in order to finish your work. Your mate may be distressed if you refuse to make a commitment.

LIBRA (Sept. 24-Oct. 23)

If you haven't already, consider starting your own business. You will meet new romantic partners through the company you keep. Don't make promises you can't keep. You may become rundown if you take on too much.

SCORPIO (Oct. 24-Nov. 22)

Travel will be most enticing. Consider a cruise. After all, they may have valuable information to pass on. Travel could include delays and other minor problems. Make alternate plans just in case you need to make a career shift.

SAGITTARIUS (Nov. 23-Dec. 21)

Don't let your stubborn nature get the better of you. Deception regarding joint finances or investments will cause upsets between family members. You can make amends by taking them somewhere special. Look into alternatives that would better suit both your needs.

CAPRICORN (Dec. 22-Jan. 20)

Do your work at home, if you can. Someone may be trying to make you look bad. Difficulties will result if you have to deal with controversial groups this week. You should not get involved in joint ventures. Your words will be taken out of context if you're evasive with coworkers or employers.

AQUARIUS (Jan. 21-Feb. 19)

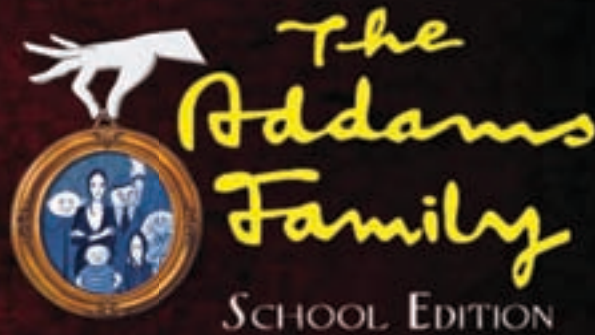

Don't try to hide your true feelings from your mate. Be sure to catch up on overdue correspondence and help those you love find solutions to their dilemmas. You may have a problem dealing with elders. Take time to deal with authority figures or government agencies.

PISCES (Feb. 20-Mar. 20)

You may have a problem with someone you live with if you can't include them in your gathering. Organize your day well if you wish to accomplish all you set out to do. You can expect opposition from family as well as colleagues. Opportunities for romance are present.

Heed The Warning of Windshield Chips, Cracks

Your vehicle's windshield has been subjected to an onslaught of opponents all summer--gravel chips, flying debris, summer hailstorms, overhanging limbs.

Those small chips and cracks can turn into big problems if left unattended. Sometimes, window chips and cracks can be repaired instead of replacing the entire windshield.

But it depends on a variety of factors. Type, size, depth and location of the damage determines what kind of service is required. For example, a small ding or small crack in the lower right corner of your windshield may be fixed using a chip repair service.

Repair or Replace?

Are there less than three chips? Is the edge of the windshield unharmed? Is the damaged area smaller than a dollar bill? Is the damaged area out of the driver's line of sight?

If you answered "Yes" to all of these, your windshield most likely can be repaired rather than replaced. If you answered "No" to any of these, or the chip is in your line of vision, windshield replacement is recommended.

Leaving chips or cracks unaddressed allows moisture, dirt and other contaminants into the exposed area. As a result, the glass may require replacement rather than less expensive repair.

Marcus Pace, owner of Pace's Chip & Rock in Sacramento, Calif., said technique and patented materials play pivotal roles in proper windshield repair. He urges drivers to ask technicians if they will guarantee their work in writing.

Pace offers the following advice when it comes to finding someone to repair that chip or replace that windshield:

- A windshield is more than just a pane of glass. Automakers say a windshield accounts for roughly a third of the vehicle's structural support, and that figure creeps up quickly during a collision. Windshields make up about 45 percent of structural support during a front-end in crash and up to 60 percent during a rollover.

- Check with your insurance company about no-cost repair. Because it's quick and relatively inexpensive, insurance companies often waive the deductible for windshield repair.

- Know what to look for when the job is finished. Make sure the molding is straight and there's no sign of adhesives or resin.

- Keep the vehicle in park for several hours after a windshield replacement. The adhesive used for windshield replacement takes time to dry. You'll also want to wait around a week before taking your vehicle through the car wash.

CHANGES CAN BE FOR THE BETTER IN FEEDING OUR PETS

Submitted By
Patsy Nelson

"People, especially in politics, are accused of changing their affiliations and/or ideas from one year or decade to another. If it is for betterment of America and its citizens, then change is good. If it is for the accumulation of wealth and power, to the detriment of the people they serve, then it is ingenuous and corrupt." -anonymous

Allow me to segue that thought into the feeding of my pets. Feeding my cats has remained constant over the past half century, although the quality has improved with knowledge. They get canned food morning and night. Not only is that important for hydration, especially as cats age, but for their pleasure, and it helps to mask medicine like Methamazole that Mystery gets twice a day. Dry kibble is always available in a mixture of many different brands and flavors. I use paper bowls as their saliva is not the most pleasant smelling and I need not wash. Wet food is put in stainless steel or ecoware bowls that I thoroughly clean. I put their dry food on a cat climber or blanket box, so the dogs don't eat it. Cat food is much higher in fat and protein and that is why dogs like to eat cat poop.

Feeding my dogs, on the other hand, has changed dramatically. I was a diehard advocate of feeding dogs twice a day with the larger meal being in the morning, as the dogs had time to utilize the calories during the day, and the smaller meal at night when they were more sedate. I remember Joe Brooks, our groomer, bless his soul, telling me that he fed his band of Shih Tzus once a day at 3 p.m., and my thinking that was odd. Now I may seem even more at odds with the norm.

I have stopped giving them kibble, even our very reputable brands. Instead, in the morning my dogs get an assortment of quality treats after Zoey gets her Addison's pill. Bob is the official morning treat giver to keep Ebby's attachment to him. I remind him not to give them too many even if they give him those "eyes." Occasionally they may get a small midday treat. I begin preparing their evening meal around 7:30 after I have fed the cats and Bob and I have finished our dinner. Feeding you and your family before the dogs ensures that they understand who the Alpha member(s) is. What I do may seem too time consuming, but it takes less time than it takes Bob to prepare his morning smoothie. In the round Our Pet stainless bowls I add the appropriate amounts of Ultra Oil (skin and coat), Glandex powder (anal gland health) and CBD oil, (health and temperament.) Then I add a 1/3-1/2 loaf of MY PERFECT, lightly cooked frozen food which I top with various Stella and Chewy freeze-dried Wild Weenies, Meal Mixers, and organ meat like hearts or liver. The more organ meat you give your pet the better. I also add for Zoey some Dr. Marty's, and for Ebby, Dr. Goldstein's Earth Animal Wisdom. If I try out a new canned or pouch wet food, I put it in a separate bowl. In the event they don't like it I have not put them off their regular meal and therefore don't waste more than necessary. To get them stimulated, I start them off with a piece of turkey tendon or a kennel-master chicken chip. Ebby will usually devour all her food, while Zoey, nestled by my side on the couch, will not eat until I put her on my bed at night sometime between 10:30-11:30. And even then, I may have to entice her with a piece of Loving Pet Duck, part of which I crumble on top of her bowl. If she still refuses, I wrap it and put it in the refrigerator. Dogs WILL eat if they are allowed to be hungry enough. Their bedtime treat is always a dental chew. Generally dogs will eat more in winter than summer when they need added fuel to keep warm.

Check out our beautiful Gold Paw Series stretch fleece tops, our warm sweaters, and waterproof jackets. See our adorable kittens, too. And thanks for Helping to Keep a Small Business in Business.
