HOROSCOPE

DECEMBER 1 - DECEMBER 7, 2022

ARIES (Mar. 21-April 20)

Don't expect anyone else to pay your bills for you. Try to be patient and understanding. It might be best to work on your own; if possible, do your job out of your home this week. You will learn valuable skills if you sign up for seminars this week.

TAURUS (Apr. 21-May 21)

The talk you have may be eye-opening with regard to your present situation. Don't be afraid to confront situations concerning loved ones in order to solve any problems that may exist. You have been stagnating for some time now and you need a change of pace. Help if you can, but more than likely it will be sufficient just to listen.

GEMINI (May 22-June 21)

People who try to persuade you to do things their way will annoy you. You've been in a rut and you need to do something that will help you break the pattern you've fallen into. Try to enlist the help of those you trust in order to fulfill the demands being made of you. Groups you belong to will not only enjoy your company, but they will also share your interests.

CANCER (June 22-July 22)

You should try to elaborate on an idea you have regarding a product or service for the home. Join a choir or a drama club. You may be considering moving to larger quarters. Be prepared to make compensations and adjustments. Be sure to look into travel opportunities that will provide you with mental stimulation.

LEO (July 23-Aug 22)

You need to spend time with friends and family. You will be subject to pushy individuals if you get involved in uncertain organizations. You may find that others do not do things the way you want; however, if the job gets done, let it pass. You will both have to bend if you want this union to work.

VIRGO (Aug. 23-Sept. 23)

Broaden your horizons and look into programs that will teach you awareness and relaxation. Be creative in your efforts. You may find that someone you really cared for in the past has come back into your life. Your suggestions for fund raising events will be well received.

LIBRA (Sept. 24-Oct. 23)

If you join intellectual or cultural groups, you should meet individuals who stimulate you. A quiet restful day just staying in bed or catching up on reading will be your best bet. Hold your temper and refrain from doing anything that might cause injury. This is a great day to spend with family.

SCORPIO (Oct. 24 - Nov. 22)

Your communication skills will bring you popularity and increased self esteem. Travel opportunities look positive, but be cautious while driving. You can get a lot done if you get your hands on the right equipment. In-laws or relatives may oppose your personal intentions.

SAGITTARIUS (Nov. 23-Dec. 21)

Be sure to catch up on overdue correspondence and help those you love find solutions to their dilemmas. Your mate will appreciate your honesty. You may not be too pleased with the actions of those you live with. Travel will be favorable and bring you the greatest rewards.

CAPRICORN (Dec 22 - Jan. 20)

Socialize with friends, but don't overspend on lavish entertainment. Travel could be in order. You'll stay out of trouble if you pick projects that will benefit the whole family. Do not confront situations unless you are sure you have a good understanding of the dilemma.

AQUARIUS (Jan. 21-Feb. 19)

Dealing with in-laws or relatives will not be in your best interest. Too much work and no play will not only result in fatigue and frustration but also loneliness, too. Minor accidents may occur if you don't concentrate on what you're doing. You can surprise members of your family, which in turn will bring you a pat on the back.

PISCES (Feb. 20-Mar. 20)

You may be the recipient of false information. Cultural activities will prove to be quite enlightening for everyone. Discuss your objectives with peers or lovers. Problems with your mate will develop if you don't let them have their way.

Wassail Day, Free Event at Historic Cold Spring Village ~ Dec 3, 2022 • 11am-2pm

The Village paths come alive with the sounds and smells of the holidays! Admission for Wassail Day is \$5.00, FREE for HCSV Members. Advanced tickets are available by visiting hcsv.org and pressing the red TICKETS button. Ticket purchase is NON-REFUNDABLE. Rain or shine event. Select buildings will be open where guests can enjoy holiday décor. Hot beverages, and treats will be served in the Friends Pavilion. Visitors can meet Father Christmas in the Country Store. The Country Store will be open and stocked with unique holiday gift ideas including traditionally processed wool, artisan crafts for the home, books, jewelry, toys, and old-fashioned candy.

Historic Cold Spring Village is a non-profit, open-air living history museum that portrays the daily life of a rural South Jersey community of the Early American era. Its mission includes the preservation of 27 historic Cape May County buildings, history education, and promoting heritage tourism. The Village is a museum for all seasons. During the summer months, historically clothed interpreters and artisans preserve the trades, crafts, and heritage of "the age of homespun."

From October to May, the emphasis is on teaching history through school trips to the Village, classroom visits by the education department and interactive teleconferences with schools throughout the United States. The Village is located on Route 9, three miles north of Victorian Cape May and a mile and a half west of the southern end of the Garden State Parkway. For more information, call (609) 898-2300, ext. 10 or visit the Village website at www.hcsv.org.

TOMMY C IS MAKING HIS MARK

Frank Sinatra, Dean Martin, Bobby Rydell - some of the great voices of the past. Let's add Tommy C to that list as one of the great voices of the present.

Tommy Coniglio, firefighter and EMT, is definitely making his mark in the entertainment world in Cape May County and beyond. Having been discovered by Joe Montello, who is also Tommy's mentor and manager, he is also known as "The Voice of Tribute," and at just 25 years old is a talented performer bringing back the greatest hits of Frank Sinatra, Dean Martin, Bobby Darin, Frankie

Avalon, Bobby Rydell and more. "The Voice of Tribute" is truly a performer to watch, singing yesterday's music for today's ears.

Tommy C's commitment to his love of music and performing began as a young boy in Hoboken, NJ, none other than the birthplace of Frank Sinatra. The product of a family of entertainers and musicians, Tommy C has honed his craft and developed a diversity within his singing styles which he pays homage to some of our greatest musical legends.

Tommy C performed at The Wildwoods Convention Center as part of the 50s, 60s and 70s weekend in October, and I recently had a conversation with Tracey DuFault, Executive Director of The Wildwoods Chamber of Commerce about Tommy C, and she was full of praise for him. Tracey said, "He is fantastic! I told him he needs to come to the office after the show because we need help answering all the calls about you." Tracey continued, "One couple called the Chamber office and talked about how overjoyed they were to dance to their wedding song from 50 years ago that Tommy C performed during the show." Tracey also stated that Tommy C is already booked for the 2023 show, and added some MC duties to his performance.

As a tribute to Bobby Rydell, Tommy C recently recorded a song with Rydell called "Sway." Visit his website: thevoiceoftribute.com and check out the video. He also recently released a Christmas album, "Christmas Time is Here," as well as a new release hitting in January. If you are interested in checking out Tommy C, come on out to Joey M's La Piazza at 3813 Pacific Avenue in Wildwood on Monday, December 5, Saturday, December 10 or Friday, December

16. Tommy C will also be performing at Joey M's on New Year's Eve. Come on out to La Piazza and enjoy a great dinner and delight in the sounds of this wonderful entertainer. Also, watch out for Tommy as he will be making several appearances throughout the tri-state area in 2023.

Don't Let Your Vehicle Battery Give You The Chills

Falling leaves signal dropping power in weak vehicle batteries, a problem that can rear its frosty head during cold nights of autumn. As a first step, figuring out whether or not your battery has gone to the dark side. Look for signs of bad behavior: engine struggling to turn over, automatic windows that don't roll up like they used to, dimming lights.

Batteries tend to get the blame when in reality they could be the messenger of other problems. Perhaps the vehicle alternator isn't living up to its full potential. Do you see rust covering terminals? It could impede the flow of energy as well.

Whatever the cause of your vehicle's sluggish starts, it's worth having a technician take a look. Cold temperatures create thicker engine oil and reduce cold cranking amps, forcing your battery to work harder when starting your vehicle.

Healthy Batteries

Car battery health is measured in volts. A healthy 12-volt car battery will actually read 12.6 volts or higher when tested. At 12.4 volts, you've lost about 25 percent of the charge. At 12 volts or lower your battery is seriously depleted, and may be losing its ability to hold a charge. Driving habits impact vehicle battery life. Your battery drains itself when it starts your car, then is gradually recharged by the running engine as you drive.

If you plan to take a lot of short trips this December, your battery may not have a chance to charge fully before you turn off the engine. This could cause it to slowly lose voltage, and eventually fail to start your vehicle.

Vehicle Battery Tips:

- If you must travel short distances repeatedly, try to mix in some longer drives (at least 30 minutes) regularly.
- If your vehicle isn't starting easily, take it to your service advisor and have the battery tested. A healthy, fully charged battery will have at least 12.6 volts.
- If you're planning to do lots of driving in freezing conditions, consider having a block heater installed to warm your engine a couple hours before starting the vehicle. This makes things easier on your battery.
- If your battery seems to be losing its ability to hold a charge, be sure to have your technician check the alternator as well as the battery itself.
- If your technician determines that a new battery is needed, be sure to pick one of the right size and capacity for your vehicle. Both your technician and your vehicle owner's manual can help with this.

SWELLING OF THE EAR (AURAL HEMATOMA) IN CATS AND DOGS

Submitted By
Patsy Nelson
from The Wagging Tail

Last night at 5:30 I took my deceased brother's 13-year-old cat, Ziggy, to the vet for treatment of a hematoma of his left ear which developed about two weeks ago. Ziggy lives in our cat shelter at The Wagging Tail. We were treating it with Zymox ear solution. We will continue to use it post-appointment after consulting with the vet. Otherwise, we will try Tresaderm.

Hematomas occur anywhere on a cat or dog where blood vessels burst usually under the skin. Immediate treatment is essential to avoid further complications. In pets it often affects the ear flap as in the case of our sweet boy Ziggy. What I did not know is that it is very painful when these pools of blood form a mass outside of the blood vessels. The swelling bulges beneath the ear flap between the two layers of cartilage and can feel firm and fluid-like. Hematomas can form anywhere in the body, in organs or in the brain, resulting in serious complications. They can appear because of trauma to that area, running into something, rough play, biting or scratching. Ear hematomas can result from scratching the ears due to chronic infections, allergies, ear mites, fleas or injury (dogs with long ears are more apt to get an ear hematoma).

In Ziggy's case we just suddenly noticed one ear flap was hanging down towards the base of his ear. On examination we noticed the blister-like swelling. After a few days of our treatment, we realized the necessity of taking him to the vet. Dr. Fanzier at Parkway Vets took him in the back where they lanced his ear to release the accumulated blood. Then she inserted steroids into the ear. Some vets will bandage the ear against the head for several days as a cautionary step. Sometimes the ear will heal itself, leaving a thick cauliflower appearance. Usually the ear will simply refill with blood and surgery under anesthesia will have to be performed. The blood would be drained and any clots would be removed and the area would be sutured over leaving no space for further accumulation of blood. The problem we have is keeping a cone collar on Ziggy for 3 or 4 weeks after surgery. A possible solution would be to let the scar tissue form which will force his ear to be permanently arched over. Truly I think he would adjust better to that than torture him with isolation and a cumbersome collar. As aural hematomas are known to recur, it is important to monitor the pet and identify any possible causes such as ear disease and allergies.

I consulted two articles on the internet to assist me in writing this article. vet.com and petcarex.com.

In case I had not mentioned it, I can now (besides her bark appeal harness) get a Gold Paw fleece top and several different style coats on my rescue fear-biter Ebby. Only because she respects the can of Pet Corrector! And maybe she trusts that I love her despite her flaws.

Thank you for helping to keep a small business in business and for your wonderful feedback about our expansive selection of quality food and accessories. We just expanded our Victor food line where you can get great food at a great price (40 lbs for \$59.99). 100% satisfaction guaranteed and your 13th bag is FREE!
