# HOROSCOPE

JULY 13 - JULY 19, 2023

## ARIES (Mar. 21-April 20)

Social events held in your home will be successful and entertaining for all. Your communication skills will bring you popularity and increased self esteem. Don't evade issues or twist the truth around. You can make major gains if you talk to your boss about your findings.

## TAURUS (Apr. 21-May 21)

You may want to take a serious look at your goals and objectives. Don't be disappointed if you don't get your way emotionally. Control your anger. Unexpected visitors will be a welcome surprise.

## GEMINI (May 22-June 21)

Don't hesitate to take short trips. Not everything you hear will be legitimate. You can come up with solutions to the problems responsible for inefficiencies at work. Equilibrium in your romantic life is likely if you treat your partner well.

## CANCER (June 22-July 22)

It's time to make professional changes. You have a lot to offer. You will also encounter individuals who can help you further your goals. Try not to allow your partner to lead you astray or upset your routine.

## LEO (July 23-Aug 22)

Be fair, not colorful. Stay away from social unpleasantness. Your communication skills are at an all-time high. Someone close to you will get upset easily if you are insensitive to their needs.

## VIRGO (Aug. 23-Sept. 23)

You should take good care of your health; get lots of rest. You can continue to make gains if you call a few people who can help you close an important deal. You will be looking for creative ways to make a little extra cash. You may overspend if you travel this week; however, the trip will be one to remember.

## LIBRA (Sept. 24-Oct. 23)

You can utilize your versatile mind and dazzle others with your speed and accuracy. They will not be in the right frame of mind to put up with tactless comments. Don't be too quick to judge your loved ones. Leave your checkbook and credit cards at home.

## SCORPIO (Oct. 24-Nov. 22)

You must avoid gossip and focus on what you have to do. You have bent over backward trying to help them and now it's time to let them stand on their own two feet. It may not be the best day to confront employers or to present your ideas. For now just do the best you can.

## SAGITTARIUS (Nov. 23-Dec. 21)

Acknowledge your lover's needs. Your attitudes at work will open new avenues for you. Underhandedness regarding legal matters or contracts must be counteracted. Talk about your intentions and confirm that you both feel the same way.

## CAPRICORN (Dec. 22-Jan. 20)

You can gain approval, get kudos, and ask for help if you put a little heart into your speech or request. You will have a little more energy than usual. You will be able to dazzle others with your obvious charm and your outgoing nature. You may find your nights sleepless due to bad dreams.

## AQUARIUS (Jan. 21-Feb. 19)

Your interest in helping others may take you back to school. Get involved in philosophic groups that will enlighten you. Don't overlook that fact that someone you care about may be hiding something. Don't even bother trying to get their approval on the things you want to do.

## PISCES (Feb. 20-Mar. 20)

Pleasure trips will be a form of healing for your emotional state of mind. You can stabilize your financial situation if you make property investments. Overindulgence may be a problem. Opportunities to make financial gains will develop through your connections with other people.

## CHEF CHIP'S WILD GAME AND SEAFOOD RECIPE

### GRILLED CARIBBEAN SHRIMP W/ MANGO COULIS

#### INGREDIENTS:

- 16 Extra Large Shrimp
- 1 Mango, Seeded & Chopped
- 1/2 Tsp Fresh Chopped Ginger
- 1 Tbs Granulated Sugar
- 1 Tbs Olive Oil
- Caribbean Jerk Spice to Taste
- 4 Skewers

#### PREPARATION:

Soak skewers in water for at least 10 min if using wood or bamboo. In a small sauce pot, mix mango, sugar, & ginger together. Heat over medium low heat. Allow mixture to cook down & have the mangos soft. Puree the mixture in a food processor or blender. Strain through a wire mesh strainer. Keep mixture covered & warm until ready to use. Preheat grill to medium high heat. Arrange 4 shrimp on each skewer. Brush shrimp w/ oil. Season shrimp thoroughly w/ Jerk spice. Spray the grill w/ nonstick spray. Lay skewers on grill. Sear shrimp on 1 side. Flip shrimp over to another prepared area of the grill. Continue grilling until shrimp is just cooked through (opaque). Serve w/ sauce on side, on top, or underneath. Enjoy!

### Bring Out The Summer Shine W/ Ceramic-Based Waxes, Polishes

Make your summer ride shine with a fresh coat of wax. But not just any old wax will do to achieve that auto-show glossy shine.

Ceramic-based waxes and polishes have become the "it" product for achieving the ultimate shine for your vehicle. Traditionally, carnauba and silicon products have been a staple of car pros for years.

"Carnauba products typically will give you a nice glow and will give some good protection," Mike Pennington from Meguiar's said recently. "But they will have the least number of protective qualities."

"Polymer waxes were the next generation of protective barriers," Pennington said. "And while they are much better than carnauba, ceramic-based products give you the most protection against the elements and they tend to last the longest."

But it isn't just about looks, it's about both beauty and protection.

"Whether you go on a road trip, a weekend getaway, or simply a day trip, your vehicle will be exposed to a variety of contaminants," Pennington said. "A protective layer of wax will be a sacrificial barrier that allows you time to wash and/or wipe off any contaminants that if left on too long, may damage the topcoat of your paint."

Benefits of using a ceramic-based wax

- **Supreme Protection:** Ceramic-based waxes and polishes create a durable and protective layer on your car's paintwork. Unlike traditional waxes, ceramics bond chemically with the surface, forming a strong and resilient shield.

- **Extreme Durability:** Ceramic-based products offer superior durability compared to conventional waxes and polishes.

The ceramic particles used in these formulas are highly resistant to heat, chemicals, and abrasion. As a result, they provide long-lasting protection that can withstand harsh weather conditions, frequent washing, and exposure to road debris.

- **Hydrophobic Properties:** Ceramic coatings possess exceptional hydrophobic properties, meaning they repel water and other liquids effectively.

This hydrophobic nature creates a self-cleaning effect, allowing water, dirt, and grime to slide off the surface with ease. This not only keeps your car clean for longer but also makes it easier to wash and maintain.

- **Enhanced Gloss and Depth:** One of the most visually appealing aspects of ceramic-based waxes and polishes is their ability to provide an incredible gloss and depth to your car's paintwork.

The ceramic particles fill in microscopic imperfections on the surface, creating a smooth and reflective finish that enhances the color and clarity of your vehicle's paint. The result is a showroom-worthy shine that turns heads wherever you go.

## INTESTINAL SAND IMPACTION CAN BE A SERIOUS PROBLEM

Submitted By  
Patsy Nelson  
from The Wagging Tail

I grew up with horses and dogs but I did not live near the beach until my thirties. Horses, grazing on sandy soil, could develop colic (potentially lethal constipation) from ingesting too much sand. I don't take my dogs to the beach because of sand fleas, dune burrs and mess on their fur. But many of my customers do and I just recently learned about one that got sand impaction and had a short stay in the vet hospital.

While romping on the beach, your dog may inadvertently ingest sand from the ball or frisbee you toss, digging in the sand, eating something tasty left behind, ingesting water while retrieving a toy thrown in the surf, consuming particles flung into the air by running children or other dogs or from shaking out a towel or blanket (saltwater poisoning can be an issue as well). Although sand particles are small, they become a condensed, wet, heavy mass which could possibly cause a blockage in the intestinal tract as in the pet mentioned above.

The symptoms you should look for are unusual "restlessness, panting, vomiting, dehydration, abdominal pain, hard mass in the stomach area and constipation." Should your dog have sand impaction, the vet will have to do an ultrasound or take x-rays. Intravenous fluids will be administered until the mass breaks up and can be passed in the stool. The vet will also give your pet medicine for pain. It may take a few days of hospitalization to stabilize the situation. In extreme cases, surgery will be necessary.

This is not to scare you, but to alert you to be more observant of the dangers of ingesting sand so that you can wipe off that ball or frisbee each time you throw it and watch your dog for other ways he may be swallowing sand. After leaving the beach, thoroughly wash or hose areas of sand contact, especially on legs, underbelly and face. All pets who enjoy the bay or ocean should be hosed as well after contact.

MANY THANKS FOR HELPING TO KEEP
