WHAT It is truly a local favorite. Located in a quaint bayside town, it is well known and easy to find. They have soft serve and hand-dipped ice creams. Milkshakes, blizzards, frozen bananas, water ice and sundaes. The prices are great and their portions are generous.

WHY Milky Way Ice Cream has a true nostalgic feel of the neighborhood ice cream hang out. It's a perfect stop for the family on a hot summer evening for handmade ice cream treats followed by a game of putt-putt.

JULY IS NATIONAL ICE CREAM MONTH

by "Joe" from Milky Way Ice Cream and Mini Golf

"I scream, you scream, we all scream for ice cream!" Shout it from the rooftops, because July is national ice cream month, and what perfect time to cool off at the Jersey Cape with a scoop of your favorite flavor, or try what other crazy flavors that exist out there. Joint Resolution 298 originally introduced national Ice Cream Month and National Ice Cream Day on May 17th, 1984. Kentucky Senator Walter Dee Huddleston sponsored the resolution. The original Presidential Proclamation issued by President Ronald Reagan stated, "Ice cream is a nutritious and wholesome food, enjoyed by over ninety percent of the people in the United States."

Like with most food treats, the exact origin of ice cream is unknown. What is known, however, is that the origin of ice cream likely dates back a long time ago. For example, Nero of Rome was said to have enjoyed harvesting ice or snow, then flavoring it with honey or other flavorings. Alexander the Great supposedly enjoyed icy drinks that had flavoring such as honey or nectar. The first instance of ice cream being in the United States, however, was in a letter in 1744 (the author of the letter was a guest of Governor William Bladen.). Early presidents also had a liking towards ice cream. In the summer of 1790, George Washington spent approximately \$200 for ice cream (keep in mind that back then \$200 was a fairly good sum of money). Thomas Jefferson actually made his own recipe of ice cream too! Dolly Madison, wife of President James Madison, served ice cream at the second inaugural ball. For a while, ice cream was only an occasional special treat, mainly for the rich. In 1843, Nancy Johnson patented the hand crank ice cream

maker. About 8 years later, in 1851, Jacob Fussell built the first ice cream factory. The invention of mechanical refrigeration helped keep large amounts of ice cream cool. Improvements and new inventions in technology helped ice cream spread towards the public.

Some Ice Cream Fun Facts are: Vanilla is the most popular flavor of ice cream - The ice cream soda was invented in 1874 - California produces the most ice cream in the United States - Approximately nine percent of milk produced in the United States is used for making ice cream. - More ice cream is consumed in Long Beach, California than any other city in the United States.

Maybe you were already celebrating National Ice Cream Month, but are you celebrating your favorite flavor day? July 7th National Chocolate Ice Cream Day - July 15th National Strawberry Ice Cream Day - July 17th National Peach Ice Cream Day - July 20th National Ice Cream Day - July 23rd National Vanilla Ice Cream Day - July 25th National Hot Fudge Sundae Day.

Now that summer has officially begun at the Jersey Cape, plenty of nights will be ending with trips out for ice cream!

Located in Villas and established in 1965, Milky Way Ice Cream and Mini Golf is the oldest custard stand in the Jersey Cape serving soft-serve and real hand-dipped ice cream, milkshakes, Italian Water Ice, and Sundaes.

What To Do on a Cloudy Day

Cloudy Day? Don't Fret! Have a Day You'll Never Forget.

People come to the Jersey Shore mainly to frolic in the Atlantic and catch some rays on the beach. Sometimes, Mother Nature doesn't cooperate and gives us gloomy days. However, the Jersey Shore is full of great things to do with your family even when the skies are overcast. For some ideas, here's a sampling of a few things that cost a few dollars but offer your family unique fun and lasting memories.

The area is full of great miniature golf courses, each one offering its own special features. Island Miniature Golf at 4501 New Jersey Ave. in Wildwood is one of the area's newest miniature golf courses and has been voted the "best on the island" and was recently a finalist for Best Miniature Golf in South Jersey by the AC Press. Island Miniature Golf also invites all military, veterans, police and fire personnel to play for FREE!

Island Miniature Golf would like to show their true appreciation to those who heroically serve and protect us! We recognize your dedication and would like to honor you by giving you a **FREE** round of Golf!!! Thank you for your service!

An 85 minute trip across the Delaware Bay is an enjoyable adventure. Whether you're crossing the Delaware Bay for a fun day trip or as part of a long-distance trip on the Cape May-Lewes Ferry, your journey is sure to be a memorable one. Enjoy historic lighthouses, picturesque harbors, ocean-going vessels, unique seabirds and, just maybe, your very own dolphin escort! There are many ships that offer great fun on the water. The Dark Star, which is part of the Starlight Fleet at Sweet Briar and Park Blvd in Wildwood Crest offers a Pirate Adventure kids are sure to enjoy. The Starlight Fleet offers great fishing excitement. The Silver Bullet in Wildwood and the Cape May Whale Watcher and the Cape May Whale Watch and Research Center offer you a trip on the water with a chance to view whales and dolphins.

Cloudy days at the shore are a great way to try your hand at "thrifting". Cape May and Atlantic Counties are full of thrift stores that offer great products and discounted prices. You can start your day in Cape May checking out the great antique shops all over town. Head off the island to Et Cetera Thrift at 3845 Bayshore Road in North Cape May, and then just make a short trip to the Veterans and Patriots of Cape May County Thrift Store in the Bayshore Plaza at Bayshore and Breakwater Roads. On your way to Wildwood, stop in to St Mary's This & That in Rio Grande. In Wildwood, there are numerous thrifts you can browse. Check out Cheap Charlie's at 4724 Pacific Ave., for a great selection of clothing, housewares and much more. Jump on to Route 9 after leaving Wildwood and your day of thrifting can continue with a visit to Volunteers in Medicine Thrift Store at 20 S. Main St. and Et Cetera Thrift's second location in Cape May Court House. Continue north on Route 9 and you will pass various antique and collectible shops along the way. When you hit Swainton on Route 9, you'll find Toys on Wheels and Coho Antiques at the intersection of Rt 9 and Goshen Swainton Rd. See the map on page 18 for some help with your day of thrifting.

Going to Cape May is a great way to spend a cloudy day. Here you will find the The Emlen Physick Estate, a Victorian house museum located at 1048 Washington Street. The 18-room mansion, attributed to acclaimed American architect Frank Furness, was built in 1879 for Dr. Emlen Physick Jr. (1855-1916), descendant of a well-known Philadelphia family, his widowed mother, Mrs. Ralston, and maiden Aunt Emilie. The mansion is closely related to Furness's Knowlton Mansion (1880-81) in Northeast Philadelphia.

A Favorite among locals and visitors is the Naval Air Station Wildwood (NASW) Aviation Museum, a non-profit museum located at the Cape May Airport just off of Breakwater Road in Lower Township, inside historic Hangar #1. Commissioned in April 1943, NASW served as an active dive-bomber squadron training facility during World War II. Today, Hangar #1 has been restored and transformed into an Aviation Museum that houses a number of aircraft, engines, special exhibits, and educational interactive displays. The museum invites visitors to explore aviation, New Jersey, military and WWII history through "hands-on," fun and educational activities for the entire family! Bring the kids and travel back in time to this 92,000 square foot sampling of the 1940's (and don't forget your camera)!

South Jersey is full of great wineries and breweries which make for a great way to spend a cloudy day. They offer indoor and outdoor seating, plus the breweries offer alcohol-free sodas for a kid-friendly environment. You can drop in to the Cape May Brewery at the Cape May Airport after checking out the Aviation Museum, or visit Natali Vineyards in Cape May Court House for a break from your day of thrifting. A great selection of beers are offered by 7 Mile Brewery in Rio Grande, and a short trek northward will allow you to discover the awesome brews at Ludlam Island Brewery in Ocean View. Whatever you choose to do, and no matter what the weather, please enjoy and make it a great day! Thanks for reading!!

Watermelon Salad with Feta & Cucumber

Ingredients:

- 8 cups cubed ripe seedless watermelon (1 8-pound watermelon)
- 2 organic mini cucumbers or ½ English cucumber (1 cup sliced)
- 2 ounces Feta
- Zest of 1/2 lemon
- 4 basil leaves
- Sea salt, for garnish

Instructions:

Chop the watermelon into cubes. Slice the cucumbers (if using an English cucumber, slice it into half moons). Chop the basil. Zest the lemon. Arrange the watermelon and cucumbers on a platter. Sprinkle with feta crumbles, lemon zest, and sea salt. Taste and adjust flavors as desired. (If you'd like, you can add freshly ground black pepper or a drizzle of olive oil.) Serve immediately. If making ahead, refrigerate the cubed watermelon separately: it releases a lot of water after it is cut. Then assemble the salad directly before serving.

Remember the Power of Powder

With summer upon us, the talk show gurus will be out in droves, sharing "insider" tips or little-known ways to best enjoy this season. What you probably won't hear them mention are the many uses of a product most of us already have in our homes.

Powder can be found in a variety of summertime sports and recreational activities. For many, it is a thing of ritual: the puff of powdered rosin that helps an All-Star pitcher gain the ideal grip on a baseball. The pre-game chalk toss in basketball, made even more popular by the sport's greatest player, LeBron James. It's even useful for billiards players and bowlers.

Powder-based products also are helpful for exercising and other common seasonal activities. Powder helps joggers avoid chafing, helps homeowners handling yard work keep their hands dry inside work gloves, and helps weekend warriors out there counteract foot and shoe odors and treat athlete's foot.

According to Pharma Tech Industries — the largest pharmaceutical contract manufacturer and packager of powder products in the world — powder products have a long list of other benefits during the warm weather season, including:

- * Airplane-friendly: Most powders are exempt from the airplane carry-on "3-ounce rule" limitations on liquids and gels.
- * Easily brush off sand: Savvy sun soakers keep powder in the same beach bag as their sunscreen for easy sand removal.
- * Natural ant repellent: Scatter powder around house foundations and common points of insect entry, such as doors and windows. The same trick is useful for the edges of picnic tables and blankets.
- * Stop floorboards from squeaking: For a quick fix, sprinkle powder between the boards that squeak.
- * Pet care: Dry shampoo your dog after a day of fun in the sun.

GRILLED STEAK & PINEAPPLE SKEWERS

A healthy, flavorful and filling dish for the whole family.

- 1 pound steak
- 1/4 cup pineapple cut into cubes
- 1/2 cup cherry tomatoes
- 1/4 red onion cut into thick cubes
- 1 yellow bell pepper cut into cubes
- 1 cup Italian parsley rough chop
- 3 cloves garlic smashed
- 1/2 cup cilantro rough chop
- 1/2 cup olive oil.
- 2 Tbsp red wine vinegar
- 1 teaspoon salt
- 1/4 teaspoon pepper
- 1/4 teaspoon red pepper flakes.

"Just one serving of pineapple contains 50% of the recommended daily amount of Vitamin C! It's also high in manganese, the mineral that helps form strong bones and connective tissue. One cup of pineapple only contains 82 calories, making it a great addition to summer recipes all season long."

Instructions

1. On a wooden or metal skewer, add pieces of the steak, cherry tomatoes, pineapple, bell pepper and red onion.
2. In a small food processor, blend the olive oil, parsley, cilantro, garlic, red wine vinegar, salt, pepper and red pepper flakes until well combined.
3. Pour half the chimichurri sauce over the skewers and marinate for at least 1 hour.
4. Then grill for about 10 minutes on each side, until the steak is cooked through.
5. Serve with the remaining chimichurri sauce on the side and enjoy!

BEACH SAFETY BEACH WARNING FLAGS

During summer lifeguard stands will fly a beach warning flag indicating surf conditions.

BEACH FLAG WARNING SYSTEM

- Only enter the water on protected beaches while lifeguards are on duty within the designated areas. Use caution whenever you enter the ocean, never turn your back on the waves and keep off the rock jetties. Never underestimate the ocean or overestimate your ability to swim in the ocean.
- Don't leave umbrellas or tents unattended. The wind can easily carry away an umbrella or tent that is not properly secured and their poles can injure other beachgoers.
- Keep an eye on your children. Parents should never leave their child unattended. Instruct your children to go to the lifeguard stand and ask the guard for help if they become lost.
- Do not feed the seagulls. Seagulls can become aggressive, especially when food is present. Also human food is not healthy for wildlife - and seagulls can bite!
- Protect your skin. Wear sunblock with a minimum sun protection factor of 15 anytime you expect to be exposed to the sun. Reapply as often as you need it.
- Wear eye protection. UV rays can damage eyes. Wear sunglasses that absorb at least 90 percent of UV sunlight.
- Watch for signs of heat stroke. These include red, hot and dry skin, lethargy, nausea and vomiting, and weakness and dizziness. If you suspect someone is suffering from heat stroke, get the victim to a shady or cool area and call for assistance. Stay hydrated by drinking plenty of water, especially on days with excessive and oppressive heat.

PROTECTING OUR PETS IN THE HEAT

Submitted By
Patsy Nelson
from The Wagging Tail

A pet-loving concerned customer told me at the counter the other day how she saw pets being taken on the hot jetties by the Ferry, where it was harmful to the pets' pads and dangerous because of possible missteps. I assured her that it was my intention to notify pet owners about all pet safety in ghastly hot, humid temperatures.

I have addressed the problem with having pets in hot cars, even with the windows slightly open on all sides. I have a lease car now that allows for auto start, so I can leave Zoey in the AC as I run into the library, or the Produce Place, and yet I am still nervous that it may shut off. The temperature in a car with the windows open slightly can reach 102 degrees in ten minutes. After 30 minutes, 120 degrees. Your pet may either die or suffer permanent organ damage.

According to Dr. Barry Kellogg, VMD of the Humane Society Veterinary Medical Association humidity is also a concern. "Animals pant to evaporate moisture from their lungs, which takes heat away from their body. If the humidity is too high, they are unable to cool themselves and their temperature will skyrocket to dangerous levels-very quickly." Yesterday I had to take Bob for his second cataract operation up in Somers Point. We took the dogs, as they each have a high-rise comfy car seat and I kept the AC on as I did some errands while Bob had his procedure. I made a pit stop for the pets in an abandoned diner parking lot behind which was some shady grass areas. I opened all the window as there was a nice cross breeze as we walked. After our walk I gave Ebby a drink. Zoey was panting but she would not drink even after I dabbed water on her lips. I think it was the humidity. I put the AC back on, closed the windows and after a bit she seemed comfortable. Zoey is a Maltese and has a short muzzle, like boxers, pugs, shih tzus bull dogs and others and it makes it even harder for them to breathe.

Exercise is great for dogs, but a parent must be aware of how much running your dog does to catch that ball or frisbee. Some dogs push themselves to excess and they can become in danger of heat stroke. It happened to Parker once, and it wasn't even hot. I carried him into the laundry sink and cooled his legs with tepid water and ran some over his body. Then let him lick on ice cubes. It was very scary. Exercise should be limited to early morning or evening hours when things have noticeably cooled down, especially hot roads. Asphalt can burn their paws so walk on grass as much as possible. Proper walking etiquette for dogs is to walk them on your left, facing traffic, and keeping the dog on the inside, preferably on the grass. Always carry water for the dog as well as for yourself. We have a supply of travel water holders, as well as treat bags. We also have cooling vests, and cooling scarves. There are cooling mats as well. Make popsicles for your pet or buy canvas bones like we have that can be put in the freezer. And some dogs would enjoy a cooling soak in a bathtub or pet pool.

Fans do not cool pets like they cool humans. If you use a fan have one that is ground level so it can keep your pets' feet cool as they sweat through their feet. If your pet spends time outside, confine them to shady areas, and provide cool water with added ice cubes. If you don't have trees, a tarp can be erected that will provide shade and still allow for air flow.

Thank you for reading and helping to keep a small local business in business. We have kittens.

Pennsylvania recently named an official state amphibian. Even weirder than that: its name is the eastern hellbender salamander. Even weirder than that: its common nickname is the snot otter!

RIP CURRENTS HOW TO AVOID & SURVIVE

A rip current is a specific kind of water current that can occur near beaches with breaking waves. A rip current is a strong, localized, and narrow current of water which moves directly away from the shore, cutting through the lines of breaking waves like a river running out to sea.

Rip currents are powerful currents of water moving away from shore. They can sweep even the strongest swimmer away from shore. If at all possible, swim near a lifeguard.

- Check water conditions before going in by looking at the local beach forecast before you leave for the beach and talking to the lifeguard at the beach.
- Only swim at a beach with lifeguards. The chances of drowning at a beach with lifeguards are 1 in 18 million (U.S. Lifesaving Association).
- Don't assume! Great weather for the beach does not always mean it's safe to swim or even play in the shallows. Rip currents often form on calm, sunny days.
- Moving at speeds of up to eight feet per second, rip currents can move faster than an Olympic swimmer.
- Panicked swimmers often try to counter a rip current by swimming straight back to shore—putting themselves at risk of drowning because of fatigue.
- Lifeguards rescue tens of thousands of people from rip currents in the U.S. every year, but it is estimated that 100 people are killed by rip currents annually.
- If caught in a rip current, don't fight it! Swim parallel to the shore and swim back to land at an angle.
