KNOW HOW PET FOOD COMPANIES CAN DECEIVE US WITH WORDS

Submitted By
Patsy Nelson
from The Wagging Tail

One of my favorite topics is WHAT IS REALLY IN THAT BAG OF PET FOOD so I frequently write about what you as the consumer and guardian of your pet's health should look for when buying your pet food. Dog food advisor had a very comprehensive article this week, which I am paraphrasing below and from which there is much more to be covered another week.

There are four rules set by the Food and Drug Administration. They are as follows:

#1 The 95% rule-if the bag states that it is Chicken Dog or Chicken Cat food then it must contain 95% chicken. If moisture is added that reduces the percentage to 70%.
#2 The 25% rule-if the protein source, let's say pork, is followed by something like entrée, dinner, platter, or formula, as in Pork Dinner, the bag must contain a minimum of 25% pork (or beef, chicken, or salmon, etc.) If moisture is added, deduct 15%, which leaves only 10% pork.

#3 The "With" rule means that if the bag says cat food or dog food WITH chicken, there is probably as little as 3% chicken, which may be the only amount of protein in the entire bag.

#4 The "Flavor" rule as in Chicken Flavored Cat or Dog Food. Using this term allows the manufacturer to only put in enough chicken to impart the minimal chicken "taste" to the food. This is just a sample of the ways in which pet food companies can describe their products thereby misleading us, the consumers, and reaping the rewards from our naivete.

Organic pet food must meet the same standards as human-grade organic. In other words, no less than 95% of the product must be organic. If only 70% meet the requirements than it must be labeled "made with organic ingredients" but allowing for 30% to be non-organic even including products which you would not want to feed your pet. If there is less than 70%, each item that is organic, like beef or peas, must be cited, and it can not mislead the consumer by calling the product Organic Beef and Pea Dog Food. Organic pet food is grouped as either; Certified organic (95% organic) or partially organic (contains only some organic ingredients.)

Dog Food Advisor recommends Tender and True Organic Chicken and Liver Recipe as a top choice for organic complete wet dog food. They also recommend for dogs with sensitive stomachs, organic dry foods such as Gather (by Free Acres) Organic Free-Range Chicken, Honest Kitchen Whole Grain Chicken Recipe (comes in a box) Stella and Chewy Venison Blend Dinner Patties, and Tender and True Chicken and Liver for dogs with allergies.

Natural, another term like Organic, has guidelines stated by AAFCO. But manufacturers may use terms like gourmet, premium, or holistic, words which allow them some trickery. As consumers we need to always refer to the ingredient panel which lists ingredients by the most to the least amount in the bag. That's why, for example, chicken should be followed by chicken meal, otherwise they are over-valuing the amount of chicken, which often include inedible parts.

Articles are also on my Facebook page, Patricia Robinson Nelson. I would love your comments. Email me at patsyrobl@gmail.com with concerns. **THANK YOU!**

HOROSCOPE

JULY 30 - AUGUST 5, 2026

ARIES (March 21 - April 20)

Motivation returns this week, helping you tackle something you've been putting off. Your determination gets noticed at work or in a personal project. Make time for fun, too, as an unexpected plan could become your highlight.

TAURUS (April 21 - May 21)

A small change brings welcome relief and greater peace of mind. Trust your instincts when making an important decision. Protect your personal time, and don't be afraid to slow down when you need to recharge.

GEMINI (May 22 - June 21)

An interesting conversation sparks a fresh idea or exciting opportunity. Stay open to unexpected changes in your plans. A new connection could lead you somewhere you never expected to go.

CANCER (June 22 - July 22)

Family and close relationships bring comfort and connection this week. An honest conversation helps clear the air and strengthen a bond. Slow down and appreciate the people who make you feel most at home.

LEO (July 23 - August 22)

Your confidence is shining brightly, and others are taking notice. Step forward and pursue an opportunity you've been considering. Encouragement from someone special reminds you just how much you're capable of accomplishing.

VIRGO (August 23 - September 23)

Focus on progress rather than perfection this week. A helpful favor or useful advice makes a busy task much easier. Clearing something lingering from your to-do list brings a satisfying sense of accomplishment.

LIBRA (September 24 - October 23)

Social connections bring fresh energy and positive momentum this week. A casual encounter could lead to a meaningful new connection. Compromise helps resolve a disagreement and restores harmony where it's needed most.

SCORPIO (October 24 - November 22)

Something you've been quietly working toward is finally beginning to move forward. Stay patient and trust your timing. An important conversation brings clarity and strengthens your understanding of someone close.

SAGITTARIUS (November 23 - December 21)

Break out of your usual routine and embrace something different this week. Trying something new could spark inspiration or excitement. Keep an open mind, because an unexpected opportunity may be closer than you think.

CAPRICORN (December 22 - January 20)

Your steady efforts are beginning to produce results you can see and appreciate. Progress arrives in a work or financial matter. Take a moment to celebrate how far you've come before moving on to your next goal.

AQUARIUS (January 21 - February 19)

A sudden change in plans may work in your favor this week. Stay flexible, particularly when it comes to relationships and routines. Honest communication helps strengthen an important connection and brings a welcome sense of trust.

PISCES (February 20 - March 20)

Trust your intuition when deciding where to focus your energy. A creative activity or relaxing pastime lifts your spirits and inspires fresh ideas. By the weekend, you'll feel lighter after finally making a decision you've been considering.

Sticks in the Sand Beach Hockey Tournament

The Sticks in the Sand Beach Hockey Tournament in Wildwood, is an exhilarating and fast-paced competition that brings the excitement of field hockey to the sandy shores of the Jersey Shore on August 1 & 2, 2026. Held right on the beach, this unique tournament challenges players to adapt their skills to an unpredictable surface, where the soft sand adds an extra layer of difficulty to every pass, sprint, and shot on goal. Teams of all ages and skill levels compete in small-sided games, battling under

the warm summer sun with the ocean breeze dancing across the sand. The sound of sticks clashing, the cheers of teammates, and the roar of the nearby waves create an electric atmosphere that blends intense competition with beachside fun. With the iconic Wildwood Boardwalk and Morey's Piers in the background, Sticks in the Sand is more than just a tournament—it's an unforgettable experience that combines a love for hockey with the thrill of summer at the shore. Sponsored by Morey's Piers! For more information, please visit moreyspiers.com/event/beach-hockey

*This restaurant deserves five stars all around!
The service was great. The atmosphere is quaint.
But the food is definitely spot on. Everything from
the appetizers right through to the dessert was
amazing. No complaints had by anyone at the
dinner table, and we went with a big group.
I would definitely recommend if you're
looking for a more luxurious meal.*

DRIVING TIPS FOR HOT DAYS, HOT NIGHTS ON THE ROAD, PT 2

- Brake lines and hoses. Any signs of damage—leaks, cracks and corrosion—can reduce braking pressure and compromise safety.
- Parking brake. Does it securely hold the vehicle when engaged? The cable and mechanism should also be inspected for wear, slack or signs of malfunction.
- Brake calipers. Make sure they are moving freely and apply even pressure to the brake pads. Sticking or worn components that could reduce braking efficiency.
- Brake fluid heat resistant. Brake fluid is heat-resistant, but over time it absorbs moisture which lowers its boiling point and reduces braking performance. Regular replacement maintains reliable hydraulic braking performance.
- Tires and wheels
- Tire safety is easy to forget in the excitement of getting to your next destination. Take a few moments to inspect your tires once a day when traveling away from home.
- Tire pressure. Hot weather makes air inside tires expand. Inspect when tires are cool for accurate reading. Tires lose air pressure every month, and an under-inflated tire causes severe sidewall. Always check tire pressure frequently when traveling away from home. A visual inspection is not enough to prevent severe damage. And tire alerts found in modern vehicles display after pressure has dropped to critical levels.
- Tread thickness. Tires contain thin tread bars between the thick tread blocks. Tread bars can be found concentric channels. Once tread blocks wear down to tread bars, tires need to be replaced promptly. They have reached their legal limit.
- Cracks. Older tires tend to crack from exposure to heat and UV light. For vehicles seldom driven, inspect for signs of age that could lead to tire failure.
- Bugles and cuts. Have you struck a curb or pothole? Make sure there is no sidewall damage that indicates a weakened tire and impending failure.
- Other safety reminders
- Battery heat stress and electrical load. Air conditioning and other in-cabin electronics place a huge load on battery power. Have your car's battery strength checked as high temperatures reduce performance.
- Windshield condition and visibility. Inspect windshield for small chips or cracks that spread quickly in hot weather. Fix small chips immediately to avoid a full windshield replacement.
- Transmission fluid condition. Fluid should be kept in good condition as high temperatures can degrade it and affect smooth gear shifting. Regular maintenance prevents delayed gear changes during long drives.
- Emergency kit and heat-related breakdowns. Always travel with an emergency kit in case your vehicle breaks down. Stock it with basic tools, water and essential items to remain safe and comfortable while waiting for assistance.
