LATEST STATISTICS ON DOG BITES IN THE UNITED STATES

Submitted By
Patsy Nelson
formerly of The Wagging Tail

Two weeks ago, I wrote an article SHE WAS BITTEN BY A RESCUE about my great niece who was bitten in the face and finger by a recent rescue at a friend's house. The dog was sitting next to her on the sofa. Seconds after she stopped petting him, he lunged at her face. While I congratulate the effort to give a dog a home, there are important steps to be taken, especially if the dog has already bitten someone in the family. Most importantly the dog must be able to accept that he/she is at the bottom of the hierarchy; in a consistent, gentle, but firm way the dog cannot feel in any way as the Alpha. #1-THE DOG SHOULD NOT HAVE BEEN ON THE SOFA. We would be remiss to blame would be biters by breed as any dog is capable. I know firsthand with a Chih/spaniel mix that I adopted as she was left in my care after the owner died five years ago. I brought her home from The Wagging Tail where I was boarding her and she promptly bit Bob who had a recent hip replacement. The shelter insinuated that they would put down a fear- bitter, so I kept her, and she has come a long way with patience, mutual respect, and parameters set by me. "Behavior research consistently finds that individual factors predict bite risk better than breed: whether a dog is spayed or neutered, whether it is chained or isolated, prior aggression, the owner's handling, and the situation (resource guarding, pain, fear, an unsupervised child). Breed is a week predictor once these are accounted for, which is why major veterinary and animal-welfare organizations oppose breed-specific bans in favor of owner-and behavior-based rules." The AVMA, the SPCA, and the CDC are not in favor of "breed-specific legislation (BSL), concluding it has not been shown to reduce the rate or severity of bites."
Approximately 4.5 million to 4.7 million people are bitten by dogs every year. Fatalities from dog attacks increased by 165% since 2019, to 127 in 2024, with 82 recorded in 2025, and 0ver 60 of those cases involved pit bulls or pit bull-type mixes. Other breeds include Labs, Rottweilers, and German shepherds. Nearly 1,000 people (I was one about ten years ago) require emergency visits from dog bites every day. Over 75% of bites occur at home with a dog with which the victim is familiar. Children aged 5-9 are the most frequently bitten and account for most severe and fatal wounds. Adults with two or more dogs in their home are five times more at risk of being bitten, as a group of dogs can vie for attention and/or become hyper-combatant. Seniors and infants are at greater risk of severe or fatal attacks. (That is what scares me about these videos of dogs lying with little babies). Postal workers are still highly impacted especially in California, Texas, Ohio, and Illinois (esp. Chicago). There were 5200 recorded attacks in 2025.
DOGS LIKELY TO SHOW AGGRESION: Toward Strangers; Dachshund, Chihuahua, Australian Cattle Dog, Beagle, often fear based or territorial. Toward Family Members; Beagle, Dachshund, Cockers, Chihuahua, Jack Russells (reasons vary but seem remedial). Most Likely Toward Other Dogs; Akita, Pit Bull-Type, Jack Russells, Australian Cattle Dog, & Chihuahua (reasons vary).

Articles are also on my Facebook page, Patricia Robinson Nelson. I would love your comments. Email me at patsyrob1@gmail.com with concerns. THANK YOU!

HOROSCOPE

SEPTEMBER 24-30, 2026

ARIES (March 21 – April 20): A new sense of purpose gives you the push to tackle something you've been putting off. Trust your instincts and keep the momentum going. A conversation later in the week could open the door to an exciting possibility.

TAURUS (April 21 – May 21): Steady progress brings a sense of confidence this week. Focus on what you can control and let the rest unfold naturally. An unexpected development toward the weekend may give you a reason to feel optimistic.

GEMINI (May 22 – June 21): Your ideas are flowing and people are paying attention to what you have to say. This is a great week to connect, collaborate and make plans. A surprising invitation or message could add excitement to your week.

CANCER (June 22 – July 22): Something that has felt uncertain may finally begin to make more sense. Give yourself time to think before making an important decision. By the weekend, a familiar person or place could bring some much-needed comfort.

LEO (July 23 – August 22): Your confidence attracts attention and makes it easier to get others behind your ideas. Take initiative when an opportunity presents itself. A compliment or unexpected recognition later in the week could boost your spirits.

VIRGO (August 23 – September 23): A productive start to the week helps you clear away unfinished business. Focus on priorities and resist getting distracted by minor details. With responsibilities handled, the weekend leaves room for something enjoyable.

LIBRA (September 24 – October 23): Your natural charm makes this an excellent week for strengthening relationships and expanding your social circle. Say yes to an invitation or make plans of your own. A new connection may prove surprisingly meaningful.

SAGITTARIUS (November 23 – December 21): A change of scenery or spontaneous plan could be exactly what you need. Follow your curiosity and leave some room in your schedule for the unexpected. The best moment of the week may be the one you didn't plan.

CAPRICORN (December 22 – January 20): Your practical approach helps you make meaningful progress on an important goal. Take things one step at a time rather than trying to accomplish everything immediately. The weekend brings a chance to enjoy your results.

AQUARIUS (January 21 – February 19): An unexpected idea could lead you in an interesting new direction. Stay open-minded and don't be afraid to approach a familiar situation differently. Someone you connect with this week may offer a valuable perspective.

PISCES (February 20 – March 20): Trust your instincts when deciding where to put your time and energy. Creative pursuits and meaningful conversations are especially rewarding now. A quieter moment over the weekend may inspire your next move.

Chrysalis Music Workshop

The Chrysalis Music Workshop will take place in the Wildwoods Convention Center September 24-27, 2026. For four days, harpists, flutists, and composers will gather to coach, collaborate, and create together. You'll workshop new pieces with the composers who wrote them, and learn what it means to truly partner with another musician — the rehearsal habits, the artistic conversations, the trust. You'll explore repertoire that stretches you, whether it's brand new or simply new to your stand. You'll practice and play together. And whether you're stepping into chamber music for the first time or raising the ceiling on what you already do, you'll leave with something rare: a real plan for what comes next. For more information and to register, visit ChrysalisMusicWorkshop.com .

CHEF CHIP'S WILD GAME AND SEAFOOD RECIPE

MARINATED GRILLED SCALLOPS

INGREDIENTS:

- 1 LB. Fresh Large Sea Scallops
- 1 TBS. Lemon Juice
- 1 tsp. Cider Vinegar
- 2/3 Cup Olive Oil
- 1 Minced Garlic Clove
- 1/2 Minced Shallot
- 1 TBS. Fresh Minced Thyme
- 1 TBS. Fresh Minced Lavender
- Kosher Salt & Fresh Cracked Black Pepper To Taste

Garnish:

- Lemon Wedges

PREPARATION:

Pour lemon juice & vinegar into a small bowl. Slowly whisk in oil until emulsified. Finally whisk in remaining ingredients except scallops. Pour mixture into a zip lock bag. Place scallops into the bag with marinade. Seal the bag & refrigerate for 20 minutes. Next, preheat grill to medium high heat. Remove scallops from refrigerator after marination time. Place the scallops on a cooling rack lined with a sheetpan. This will allow excess marinade to drain off. Next, coat the grill heavily with nonstick spray. Season scallops & place them on the prepared grill one at a time. After you have achieved nice grill marks, coat another clean part of grill with nonstick spray. Flip the scallops over to the newly prepared part of the grill. Finish cooking to desired doneness. Garnish w/ a lemon wedge & serve w/ a nice salad, rice, couscous, risotto, etc. Hint: For the best results, cook scallops to medium internal temperature. Well done scallops are not what you want!

This restaurant deserves five stars all around! The service was great. The atmosphere is quaint. But the food is definitely spot on. Everything from the appetizers right through to the dessert was amazing. No complaints had by anyone at the dinner table, and we went with a big group. I would definitely recommend if you're looking for a more luxurious meal.

FALL INTO FUN, SAFE ADVENTURE THIS AUTUMN, PT 2

Proper alignment improves safety, steering response and braking for all those autumn driving duties.

5. Change essential fluids

Summer heat can cause engine oil, coolant, brake fluid and transmission fluid to deteriorate. This reduces their ability to protect your vehicle's critical systems. Have a service advisor inspect the condition and level of all essential vehicle fluids.

If any fluid is dirty or contaminated, have it replaced to keep your car components functioning properly throughout autumn.

6. Inspect underbody for damage

Road debris and rough roads can damage the undercarriage of your vehicle. Listen for noises or rattles that may indicate a loose exhaust component which should be repaired before it leads to more expenses.

Inspect the exhaust system for leaks, corrosion and signs of excessive wear.

7. Cooling system maintenance

Months of high temperatures can place extra stress on the radiator, hoses, clamps and water pump and cooling system.

Your vehicle's cooling system should be checked for cracks, swelling and soft spots. Replacing worn belts and hoses during routine maintenance is far less expensive than dealing with a roadside breakdown.

8. Refill washer tank and clean spray nozzles

All those times you activated the window cleaning mechanism on your vehicle may have depleted the fluid reservoir and accumulated sediment on the spray nozzles.

Clogged nozzles send that spray everywhere except where it belongs–in your field of vision.

Improve driving safety and convenience. Ask your advisor to refill the washer fluid tank and adjust nozzle performance before autumn rains.

9. Lubricate hinges and latches

Creaky vehicle door, hood and trunk hinges? Summer sun, frequent vehicle washing and normal usage can leave your vehicle in need of lubrication.

Put lubrication on your request list to prevent squeaks and rust as temperatures cool. Also check for loose fasteners and damage that may require adjustments or repair. Let your advisor know if you find any loose fittings.

10. Check exterior lighting

Lighting becomes especially important during the change of seasons. The goal is to see and be seen as your drive during longer fall and winter nights.

Check headlights, taillights, brake lights, turn signals and reverse lights: Replace damaged or yellowed headlamp cases.
