YOUR PET'S EARS-CONCERNS AND CARE

Submitted By
Patsy Nelson
from The Wagging Tail

Many dogs and cats are afflicted with ear problems. Some occur infrequently and can be easily diagnosed and treated. Others are chronic. The causes vary from yeast infections, mites, and allergies. You may have witnessed your pets scratching at their ears, or one or both ears may be tilted at an unusual angle. You may have noticed inflammation or an unpleasant odor. If something seems wrong it probably is, is my motto. Sometimes it is a simple matter of cleaning out the ears with a pet ear solution and a gauze pad or if you're careful, a cotton swab. In an article from DogsHealthProblems.com, a dog's ear is described as having a peculiar "L" shaped anatomy which helps protect it from injury, but due to the depth, and gravity, it allows for the accumulation of "wax, debris, and foreign material that cannot be shaken out." The ear is usually a dark, moist, warm environment; a welcome environment for bacteria to grow. Constant scratching can cause swelling of the ear flap. This is a blood-filled mass or hematoma that will need veterinarian attention.

Dogs plagued by yeast infections will have the following symptoms: inflamed, hot and painful outer ear, smelly brown to yellow, bloody, or waxy discharge, scabbing around the opening of the ear, head shaking and/or head tilting, hair loss around the ear, scratching either behind or inside the ears. When cleaning dog's or cat's ears, or other pets, use a proper pet ear solution. Fill the ear canal half-way (unless directions say completely) then massage gently at the base of the ear. Allow the pet to shake out excess amounts. Wipe out as deep as you can as mentioned above. Don't use cotton balls as they tend to leave microscopic fibers behind. Then use the medication prescribed by your vet. I use Zymox Ear Solution, when necessary, which is designed to be more effective in an UNCLEAN ear. Yeast infections are stubborn and may take months and some investigative work to get to the underlying issue if it is chronic. Like food allergies. Also, if you have a type of dog like our Maltese, Zoey, who grows hair inside her ear blocking ventilation, you need to keep it plucked out. This is not painful if you use ear powder (which is great for dogs with heavy ears to help keep them dry and odor free) and your fingernails or a rounded tweezer. Just do small amounts at a time. If your dog with heavy ears grows hair inside the flap, it would be wise to keep it shaved especially during warmer months. And taping or using a hair tie to keep the ears open for brief periods will help. And always dry your dog's ears after swimming.

I returned to Face Book where I can post my articles for anyone interested. And I would be so grateful for your feedback. If there is some issue you are having and want to discuss it, you can also reach me at patsyrob1@g-mail.com. I miss my customers very, very much.

HOROSCOPE

JULY 9 - 15, 2026

ARIES (Mar. 21-April 20)

A fresh burst of motivation could inspire you to tackle something you've been putting off. Just remember that enthusiasm alone won't finish the job. Create a simple plan before diving in, and you'll accomplish far more than you expect.

TAURUS (Apr. 21-May 21)

You may realize that holding onto one routine has kept you from noticing a better opportunity. Stay open to small adjustments, especially if they make life easier. Sometimes the smartest move isn't the biggest one - it's simply the most practical.

GEMINI (May 22-June 21)

This week favors conversation, networking, and unexpected connections. Someone you casually interact with could offer valuable insight. Listen as much as you speak, and don't dismiss ideas because they arrive from an unlikely source.

CANCER (June 22-July 22)

You may finally feel ready to simplify an area of your life that has become unnecessarily complicated. Whether it's your schedule, finances, or relationships, clearing away excess will give you more energy for what truly matters.

LEO (July 23-Aug 22)

Your natural leadership may be called upon, but you don't have to solve every problem yourself. Encouraging others to step up will strengthen the entire team. Confidence grows even stronger when it's shared instead of carried alone.

VIRGO (Aug. 23-Sept. 23)

Details will matter more than usual this week, but don't let perfection delay progress. Finishing something well is often better than waiting for the perfect moment to make it flawless. Trust that you can refine things later if needed.

LIBRA (Sept. 24-Oct. 23)

A shift in priorities could make an upcoming decision easier than you expected. Instead of trying to keep everyone happy, focus on what aligns with your own long-term goals. Clarity often arrives once you stop overcomplicating the choice.

SCORPIO (Oct. 24-Nov. 22)

Your determination is one of your greatest strengths, but flexibility may prove just as valuable this week. If circumstances change, adapting quickly will bring better results than sticking to the original plan out of pride.

SAGITTARIUS (Nov. 23-Dec. 21)

Curiosity could lead you toward a new hobby, destination, or opportunity. Exploring something unfamiliar may spark ideas that benefit other areas of your life as well. Keep an open mind - you never know where one small adventure might lead.

CAPRICORN (Dec 22.-Jan. 20)

A recent accomplishment deserves more recognition than you've given it. Before racing toward the next goal, take a moment to appreciate how far you've already come. Celebrating progress can be just as motivating as setting new ambitions.

AQUARIUS (Jan. 21-Feb. 19)

You may notice people seeking your perspective more than usual. Your ability to see possibilities others overlook can help solve a lingering issue. Share your ideas confidently, even if they seem unconventional at first.

PISCES (Feb. 20-Mar. 20)

A welcome sense of calm may replace recent uncertainty. Rather than searching for every answer immediately, enjoy the feeling of being present. Your next step becomes obvious only after you've stopped trying so hard to force it.

*This restaurant deserves five stars all around!
The service was great. The atmosphere is quaint.
But the food is definitely spot on. Everything from
the appetizers right through to the dessert was
amazing. No complaints had by anyone at the
dinner table, and we went with a big group.
I would definitely recommend if you're
looking for a more luxurious meal.*

In Memory Of Josephine Eleanor House/Gacono. Josephine was so loved by everyone she met. She was the kindest loving person you ever wanted to meet. She taught people how to live life simply through love. She was a Wildwood High School Graduate & later relocated to Sebring FL. Her greatest accomplishment was the impact she left on us all.

God has you now. We will miss you & always love you.

Chef Chip & Family

CHEF CHIP'S WILD GAME AND SEAFOOD RECIPE

SEA BASS CASINO

INGREDIENTS:

- 4 Nice Black Sea Bass Fillets
Skin On & Scaled
- 1/2 Pound Raw Small Diced
Bacon
- 2 TBS. Shallots Brunoise Cut
(Very Small Dice)
- 1/4 Cup Green Bell Peppers
Brunoise Cut (Very Small Dice)
- 1/4 Cup Red Bell Pepper
Brunoise Cut
- 1 TBS. Fresh Chopped Thyme
- 1 TBS. Fresh Chopped Parsley
- 1 Cup Panko Breadcrumbs
- 2 TBS. Parmesan Cheese
- 1 TBS. Unsalted Melted Butter
- Kosher Salt & Fresh Ground
Black Pepper To Taste
- Garnish:**
- 4 Lemon Wedges

PREPARATION:

Preheat oven to 375°. Line a sheet pan w/ parchment paper & lightly coat it with nonstick spray. Lay the fillets skin side down on the sprayed parchment. Next, cook the bacon in a sauté pan over medium heat. When the bacon is cooked but not quite brown, drain off half the fat. Add in the shallots & stir. After the shallots start to become soft add in the peppers, Thyme & seasoning. Cook for 2 minutes more. In a bowl, mix the breadcrumbs, melted butter & parsley. Add bacon mixture to breadcrumb mixture & toss together. Coat the top of the fillets evenly with the mixture. Sprinkle the cheese over the top of the Casino mixture. Bake until the fish reaches an internal temperature of 140°. Remove from the oven & plate. Garnish & serve. Enjoy! Hint: I like to use Lemon Thyme with this if I can get it. It's just like it sounds, Thyme with Lemon flavor.

VENTURE INTO THE GREAT BEYOND WITH CONFIDENCE THIS SUMMER, PT1

Minor vehicle annoyances in spring can turn your celebrations into expensive and inconvenient repairs.

"Now is the perfect time to make sure you are prepared for all the upcoming summer travel," said Brad White, executive director for the Missouri Department of Transportation. "A complete evaluation of your car along with routine maintenance will provide a smooth and safe ride."

"Begin your summer trips with some peace of mind knowing your vehicle is ready for the road ahead."

According to the National Highway Traffic Safety Administration, a pre-trip vehicle inspection helps families avoid roadside breakdowns during peak travel months. Include the following items on your vehicle inspection list:

Brake performance

Summer heat exacerbates braking problems.

Do you feel a vibration in the steering wheel when stopping your vehicle? Does your brake pedal feel squishy or drop to the floor when pressed? Do you hear any squeals or scraping when braking?

Lots of factors can contribute to braking problems:

Towing a trailer or recreational vehicle

Packing a lot of cargo weight in the cabin and on the roof

Frequent stop and go driving such as metropolitan rush hour

Ask your service advisor to inspect brake pads, brake fluid, rotors and brake lines for wear and tear.

Tire safety

Your journey through the desert, over mountain passes and along coastal routes takes a toll on tire treads. Hot road surfaces also shortens tire life—especially when towing and driving with heavily packed vehicles.

Ask your service advisor to check out the following:

Tire tread depth. Make sure your tires have plenty of tread to make it to your destination and back.

Sidewall damage. Did your tires encounter a pothole or curb in winter or spring? Look for scuffs, cuts, scrapes and bulges. Replace tires immediately that show obvious signs of damage.

Screws and nails. A slow leak may not be apparent in daily errands. Long distance travel especially on remote roads may spell disaster—a flat and severely damaged tire that cannot be repaired.

Tire inflation. Too little or too much tire pressure causes increased wear or potential blowouts. Always check tire pressure before leaving town.

If your vehicle needs tires, consider all-weather or all-season treads. They can handle a variety of road conditions. They also provide excellent longevity and a smooth ride for extended road trips.

A note about all-wheel drive vehicles:

If one tire is replaced, then most times all four tires must be replaced as well. Otherwise, you risk damaging the vehicle's all-wheel drive system. Check your owner's manual for details.
