CANCER (June 22 – July 22): A situation that once seemed complicated may finally become easier to understand. Trust yourself to make the right decision without overanalyzing every detail. A thoughtful gesture from someone close could brighten your weekend.

LEO (July 23 – August 22): Your magnetic personality draws attention this week, creating opportunities both socially and professionally. Step outside your comfort zone and make your presence known. An unexpected compliment or invitation could lead to something exciting.

VIRGO (August 23 – September 23): A change in your usual routine may initially feel inconvenient but could work to your advantage. Stay flexible and focus on the bigger picture. By the weekend, an unexpected development may give you something to look forward to.

LIBRA (September 24 – October 23): The spotlight is on you as your birthday season continues, bringing fresh energy and exciting possibilities. Make time for the people and activities that bring you happiness. A surprising encounter could leave a lasting impression.

SCORPIO (October 24 – November 22): Your determination and sharp instincts help you uncover an opportunity others may have overlooked. Be strategic about your next move and avoid revealing too much too soon. A promising development could arrive just before the weekend.

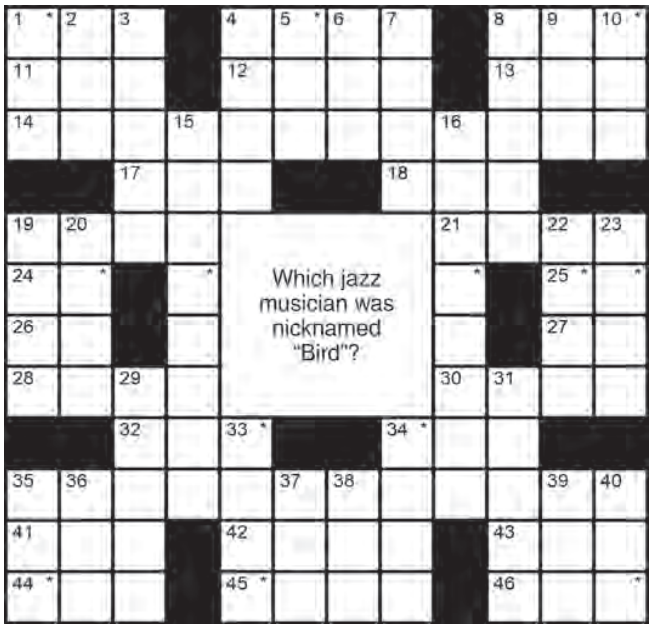

SAGITTARIUS (November 23 – December 21): Restlessness may inspire you to explore something new or revisit an old interest. Follow your adventurous spirit, even if it means changing your plans. A spontaneous outing could turn into one of the week's most memorable moments.

CAPRICORN (December 22 – January 20): A responsibility you've been juggling may finally become easier to manage. Your practical mindset helps you find solutions without unnecessary stress. An encouraging conversation later in the week could strengthen your confidence in the future.

AQUARIUS (January 21 – February 19): An unexpected twist could introduce a possibility you hadn't previously considered. Keep an open mind and resist the urge to dismiss unconventional ideas. A new connection or surprising discovery may spark an exciting change.

PISCES (February 20 – March 20): A little time away from your usual responsibilities could help restore your creativity and enthusiasm. Pay attention to subtle signals and trust your instincts when making plans. The weekend may bring a meaningful moment worth remembering.

OBESITY AND WEIGHT MANAGEMENT IN PETS

Submitted By
Patsy Nelson
formerly of The Wagging Tail

This is at the top of the list of concerns pet parents have about their cats and dogs. Obesity is at epidemic proportions for humans in the United States. Obesity prevalence ranges from about 41.9% of adults (over 100 million people) and 19.3% of youth. One in four children is considered obese. Pet obesity is also widespread and a serious health condition affecting roughly 59% of dogs and 61% of cats in the U.S.

I take my two dogs to the vet every 28 days for them to get their shots for Addison's. Ebby only gets the Addison shot. Zoey, our Maltese, gets an additional shot to counteract the itchy reaction she gets to the other shot. I recently wrote an article on this. And it is quite common in the breed. On our last visit, I was dismayed that Zoey had gained a pound and discovered later that SHE was finishing the dinner that Ebby often leaves from the night before that I save hoping Ebby would be hungry enough come morning. Now I won't leave the food unattended. A small dog gaining a pound is equivalent to my gaining 14 pounds! In medium dogs (25lbs) a pound would increase a dog's weight by 4%, and dogs over 50lbs, a jump of 2%. Dogs and Cats, even other pets like rabbits, are considered overweight when they weigh 10% to 30% more than their ideal weight and obese when over 30%.

I happened to stop by a neighbor's house today and her pet dog was tied out on the step. The poor dog was even more grotesquely overweight than I had remembered. It would be equivalent to a five-foot-eight man weighing 400 pounds. No exaggeration. She is also visibly plagued with cherry eyes and a very dry dull coat. I wanted to say, again, to the owner, a sweet widow, that her dog was in a dire unhealthy state. But apparently, I am not going to extend this dog's life beyond this ignorant or naive abuse.

Obesity in pets causes a long list of dangers to a pet's organs and body systems, especially from middle age on: Chronic inflammation-happens when fat tissue is biologically active and secretes inflammatory hormones; Joints and mobility become issues as it worsens or causes osteo-arthritis; ruptured knee ligaments and herniated discs; Higher rates of diabetes mellitus, high blood pressure, heart disease, respiratory distress, and certain cancers. Moderately overweight dogs can have a two-year shorter lifespan. Imagine the shortened lifespan of an obese pet.

Common causes of overweight pets are free feeding, diets full of carbohydrates and fats, excessive treats, low exercise level, medical conditions like Hypothyroidism, Cushing's disease, certain medications like prednisone (which my dogs are on daily) lower metabolic rate, especially after spaying/neutering, old age, and genetics; labs, goldens, pugs, and beagles.

Articles are also on my Facebook page, Patricia Robinson Nelson. I would love your comments. Email me at patsyrob1@gmail.com with concerns. THANK YOU!

WHAT'S HAPPENING AROUND THE CAPE

MIDDLE TOWNSHIP
FLECK FAMILY FALL FEST
Sunday, October 18 10 am - 3 pm
Wear your costume and do some trick or treating!! There will be food, face painting, 30+ vendors, a petting zoo, bounce house, a pumpkin patch, and, of course, Momma Fleck's Baked Goods. Don't miss this highlight of the Fall Season!! The festival will take place at Ellie & Wild Bill's Farm Market at 517 S. Delsea Drive in Green Creek.

TRUNK OR TREAT
Thursday, October 15 6 - 7 p.m.
AtlanticCare Cancer Care Institute, 106 Court House - Dennisville Road, Building 200 in Cape May Court House.
Enjoy a not-so-scary evening of Halloween fun, featuring trunk-or-treating and the AtlanticCare "haunted" Mobile Ambulance Bus! This trunk or treating is open to the public at no cost. Appropriate costumes are encouraged, but not required.

NATIONAL SPORTS DAY FRIDAY, OCTOBER 16
October is prime time for National Sports Day. That's why on October 16, the fans, families, and athletes of all the sports converge to celebrate their favorite athletic events. All disciplines of a sport take the field, from the youngest to the seasoned professional.
While golfers hit the links to get at least nine more holes before the snow flies, hoopsters gear up for the season ahead. The puck hits center ice early in October, while baseball aims for the bleachers and clears the bases. Football is heating up with tackles, kicks, and offsides. Don't forget, volleyball digs midseason, too. And runners in most of the country love October.

This restaurant deserves five stars all around! The service was great. The atmosphere is quaint. But the food is definitely spot on. Everything from the appetizers right through to the dessert was amazing. No complaints had by anyone at the dinner table, and we went with a big group. I would definitely recommend if you're looking for a more luxurious meal.

CHEF CHIP'S
WILD GAME/SEAFOOD RECIPE

VENISON BLACK BEAN CHILI

INGREDIENTS:
- 2 LBS. Ground Venison/Pork (65%V/35%P)
- 1TBS. Olive Oil
- 1/2 Cup Yellow Onion, Small Dice
- 2 TBS. Fresh Minced Garlic
- 1/4 Cup Small Diced Jalapeño Peppers
- 2 TBS. Tomato Paste
- 1/4 Cup Chipotle Peppers In Adobe Paste
- 1 TBS. Cumin Powder
- 2 TBS. Chili Powder
- 2 TBS. Smoked Paprika
- 1 Package Beef Flavored Onion Soup Mix
- 1 (28 oz.) Can Diced Tomatoes
- 1 (15.5 oz.) Can Black Beans, Rinsed
- 1 tsp. Worcestershire Sauce
- 1 oz. Dark Chocolate
- Kosher Salt & Fresh Cracked Black Pepper To Taste

Garnish:
Sour Cream, Shredded Cheddar Cheese & Fresh Sliced Green Onions or Scallions

PREPARATION:
Add Olive oil to a pot over medium high heat. Add in ground Venison/Pork mixture & stir occasionally. When the meat is almost cooked through, strain it in a colander. Add the meat back into the pot & return to medium heat. Next, stir in onions, garlic & Jalapeños. After they are soft & cooked through, stir in spices, onion soup mix & tomato paste. Stir canned tomatoes into the pot with 1 Cup of water. Allow to simmer for 15 minutes. Finally, add in Black beans & chocolate. Simmer for 15 more minutes. At this point you can refrigerate it for at least 8 hours. This will allow all the flavors to come together. Reheat slowly & serve with sour cream, cheddar cheese & fresh green onion slices. Enjoy!
Hint: After reheating you can thicken with masa harina if so desired.

THE ROAD AHEAD: PREPARING YOUR VEHICLE FOR SHORTER DAYS, LONGER NIGHTS, PT 2

6. Test defroster and heating system: After months of relying on your vehicle's air conditioner, concerns about the window defroster may not seem important until the first chilly morning.

Set the climate control to the defrost mode and make sure a strong stream of warm air flows across the windshield. Test each fan speed and vent mode to ensure they're working properly. If the windshield remains fogged or takes too long to clear, have the heating and defroster systems inspected.

7. Check weather seals for signs of wear: Intense summer heat can cause the rubber weather seals around the doors, hood and trunk to harden and crack. Check the seals for splits, tears and areas where the rubber has separated from the surface. Pay close attention to the trunk seal where even a small gap can allow water seep into the cargo area. Inspect the hood seal for damage to ensure that it keeps water, dirt and road debris away from sensitive engine compartment components.

8. Inspect vehicle underside: Plastic splash shields are particularly vulnerable to damage from curbs and deep potholes. Some telltale signs: Hear a rattling sound after hitting a pothole? Notice fluid spots where you park or smell exhaust fumes when starting your vehicle?

Schedule an underbody inspection as soon as possible. Once partially detached, the flopping shield allows dirt and road debris to reach critical engine and transmission components. The loose shield poses a problem by getting snagged or tearing off completely. Check the exhaust system for dents or loose components and inspect brake lines for corrosion that can compromise braking performance.

9. Catch up on routine maintenance: Maintenance after a busy summer prepares your vehicle for the cooler temperatures and changing driving conditions that autumn brings. Start by checking when the engine oil was last changed and inspecting all essential fluids, topping them off or replacing them as needed. Check engine and cabin air filters and replace them if they are dirty or clogged. Staying on top of scheduled maintenance also gives technicians the opportunity to identify developing problems before they affect your vehicle's reliability.

10. Listen for new sounds: As driving patterns return to shorter routine trips, unusual vehicle noises become easier to notice. Pay attention to high-pitched squeals when starting the engine or applying brakes. Do you hear rattling over bumps or humming noises that increase with vehicle speed? These sounds can provide valuable clues about potential problems, including worn brake components, frayed drive belts, failing wheel bearings, loose suspension parts or damaged exhaust hangers.
