Free electronic hearing screenings will be given at the Cape May County Hearing Aid Dispensary, 204 S. Main Street, Cape May Court House on Monday, Tuesday, Wednesday, Thursday & Friday, November 2, 3, 4, 5 and 6. Please call for an appointment. Anyone who has trouble hearing or understanding speech or words clearly is welcomed to have a screening using the most modern electronic equipment to determine if their hearing loss is one which may be helped.

Everyone should have a hearing screening at least once a year if there is any trouble at all hearing clearly. Even people not wearing a hearing aid or those who have been told nothing could be done for them should have a hearing screening and find out whether the modern methods of hearing correction can help them hear better. The Free Hearing Screenings will be given by factory-trained Hearing Aid Specialists licensed by the State of New Jersey on Monday, Tuesday, Wednesday, Thursday & Friday, November 2, 3, 4, 5 and 6.

CHEF CHIP'S WILD GAME/SEAFOOD RECIPE

PAN SEARED HERB STRIPED BASS

INGREDIENTS:

- 2 (8oz.) Striped Bass Fillet Cuts, Skin On & Scaled
- 2 TBS. Olive Oil
- 1 TBS. Fresh Finely Chopped Thyme
- 1 TBS. Fresh Finely Chopped Rosemary
- 2 TBS. Fresh Finely Sliced Chives
- 1 TBS. Fresh Finely Chopped Parsley
- 1 tsp. Ground Celery Seed
- Kosher Salt & Fresh Cracked Black Pepper To Taste
- 1 TBS. Unsalted Butter
- Garnish: 2 Lemon Wedges

PREPARATION:

Preheat a medium to large nonstick saute pan over medium high heat. Place the Thyme, Rosemary, Chives, Parsley & Celery Seed into a shallow lipped dish & mix them around until evenly incorporated. Next, coat the fillets w/ one Tablespoon of oil. Season both sides of the fish w/ salt & pepper. Press the fillets one at a time into the herb mix, flesh side down. Pour the remaining olive oil into the preheated pan. Lay the fillets into the pan, skin side down. Allow the skin to crisp up & do not touch it. When the edges of the skin starts to pull away from the pan, it will be time to flip the fish. You want to add the butter to the pan right before this step. Allow the fish to reach an internal temperature of 145°. Plate, garnish & serve. Enjoy!

Hint: It's Striper time in South Jersey! Eat the smaller ones & let the big ones go after taking a picture. A large striper is not what you want to eat compared to & smaller one. It's good to let the big ones go to ensure a future for the population. A large striper will produce tens of thousands of eggs more than a smaller striped bass.

HOROSCOPE

OCTOBER 29-NOVEMBER 4, 2026

ARIES (March 21 – April 20): The Full Moon challenges your value system; avoid impulsive spending. Saturn's influence eases the transition, but emotional purging in Scorpio season calls for journaling or honest conversations with trusted friends.

TAURUS (April 21 – May 21): Reflection on successes and failures; the Full Moon in your sign deepens self-discovery. Clarity comes from Venus retrograde trine in Libra.

GEMINI (May 22 – June 21): Mercury retrograde prompts re-evaluation of past choices. Communication may feel forced; use this time to refine your words.

CANCER (June 22 – July 22): Moon in Cancer supports emotional openness; share your feelings with someone you trust.

LEO (July 23 – August 22): Scorpio season's emotional work may surface old resentments; address them before they fester.

VIRGO (August 23 – September 23): Focus on practical matters; avoid over-complicating decisions amid Mercury's retrograde.

LIBRA (September 24 – October 23): Venus retrograde in your sign encourages re-assessing relationships and values.

SCORPIO (October 24 – November 22): Sun–Pluto square brings power dynamics into focus; avoid burying tensions.

SAGITTARIUS (November 23 – December 21): Mercury retrograde may cause delays; review plans and avoid hasty commitments.

CAPRICORN (December 22 – January 20): Financial mindfulness is key; avoid over-extension.

AQUARIUS (January 21 – February 19): Pluto's influence may reveal hidden costs; focus on sustainable habits.

PISCES (February 20 – March 20): Emotional support and self-care are priorities; lean on your community.

MORE INFORMATION ABOUT ARTHRITIS IN PETS

Submitted By
Patsy Nelson
formerly of The Wagging Tail

Most of us senior citizens experience the pain and inflammation connected to arthritic joints. I have osteoarthritis and wake up each morning with back pain which eventually eases up as I begin moving around. A friend of mine has arthritis in his feet and for years gets relief from a chiropractor. That would probably be good for our pets if we could afford it. Older pets are obviously more susceptible, but arthritic problems plague overweight and inactive dogs as well. (I have not begun my walking regimen with my dogs. Bad me. Do as I advise, not as I do.) Younger pets, like our Parker, who broke his leg as a pup, would most likely have suffered from arthritis as he got much older. Unfortunately, due most likely to his parents being allowed to breed continuously and irresponsibly, he developed spleen, kidney and bladder cancer during covid when he was only seven years old. Our hearts are still broken.

There were years when judges gave awards to German Shepherds with back ends that nearly touched the ground. Thus, the breed subsequently suffered from widespread hip dysplasia. My brother gave me his female shepherd when I moved to Cold Springs in the late seventies. Her hip dysplasia got so bad that she could not navigate the steps to get herself into the house and I had to rehome her to make her life less painful. It took a long time for breeders of German Shepherds to realize the error of their selfish decisions and now they breed them with grey hounds, for example, to emphasize a straighter back conformation.

Dogs that are very active in agility jumping trials (as well as horses) put abnormal stress on normal joints. Degenerative joint disease (osteoarthritis) results in the destruction of cartilage that reinforces the bones connecting to the joints. I think my issue stems from longtime stress on normal joints during prolonged trail riding when I pushed myself even though my joints were screaming STOP, and from frequent falls from horses from the time I was an adolescent. Again, abnormal stress on normal joints. These further examples are considered a secondary disease because a cause can be formulated as in hip dysplasia, patella luxation (Ebby's loose kneecaps) osteochondritis dissecans (OCD, the development of cartilage "flaps" in the joints when there is a disturbance in bone development) trauma, and ruptured cruciate (knee) ligaments. A dog may not show any outward signs of stress for years until finally there is irreparable damage. It is wise to treat any animal (including us humans) by keeping our joints lubricated. As I mentioned before, I give my pets Ultra joint support every night with dinner. And Bob sees to it that we get the supplements that our joints need in our daily smoothies.

Inflammatory joint disease is usually the result of an infection of an undetected immune-mediated disease which manifests in fever, low energy, and overall stiffness. As in Lyme disease or Rocky Mountain spotted fever, or by fungal infection. I am lucky I guess with AGS.

Articles are also on my Facebook page, Patricia Robinson Nelson. I would love your comments. Email me at patsyrob1@gmail.com with concerns. THANK YOU!

AROUND THE CAPE

May's original haunted house, for some treats…and maybe a few tricks, too. Spooky music, Scarecrow Alley, and maybe a few strange spirits hanging around the grounds!

DEPARTMENT 56 HALLOWEEN EXHIBIT
Daily through October 31: 10am - 4pm
Emlen Physick Estate
If you love our Dept. 56 Dickens Village at Christmas, come and see what we have for Halloween! It's a witch's brew of spooky houses, bizarre characters and bats, cats and pumpkins galore, all done in the exquisite miniature fashion which has made Dept. 56 so popular with collectors. Nearly 100 pieces and accessories will be on exhibit on the Physick House's enclosed entrance porch.

NATIONAL CAT DAY

National Cat Day on October 29th is the purrfect day to give extra attention, treats, and appreciation to the independent, often hilarious, felines who grace our lives.

Cats make excellent, if opinionated, companions. They rarely miss you, but when they do, you certainly know it - usually in the form of a synchronized head-butt, a sudden case of zoomies at 3:00 AM, or a perfect loaf positioned exactly where you need to sit. National Cat Day is a celebration of all these unique cat quirks and the joy they bring.

NATIONAL CANDY CORN DAY

On October 30th, the country celebrates an iconic treat on National Candy Corn Day. Whether you feel neutral about it, adore it fiercely, or passionately hate it, one thing is for sure: candy corn is one of the most nostalgic treats that sparks surprisingly strong opinions.

WHAT'S HAPPENING AROUND THE CAPE

Candy maker George Renninger is credited with inventing candy corn while employed at the Wunderlee Candy Company in Philadelphia in the 1880s. This sweet treat represented the bright colors of corn kernels--yellow, orange and white. However, the candy was popularized and mass-produced starting in 1898 by the Goelitz Confectionery Company, which later became known as the Jelly Belly Candy Company. Jelly Belly proudly claims the longest history of continuously producing candy corn, using the same original recipe.

HALLOWEEN

October 31st brings out the ghouls and goblins, creatures, and strange folk. It's Halloween! This spooktacular holiday is when things come creeping about the neighborhood seeking favors over trickery.

People of all ages look forward to Halloween traditions. While dressing up and baking, we carve up glowing pumpkins. Children breathe life into storybook characters while practicing their trick or treat. In twos and threes, they traipse through the neighborhood, collecting their bounty in pillow sacks. A ghost, a pirate, a robot or Dorothy, and Toto. No matter their age, they come to the door. They knock or ring. Here and there, a screech or a boo!

NATIONAL SANDWICH DAY

Whether you stack it high or thin, National Sandwich Day on November 3rd recognizes one of America's favorite lunch items. The sandwich is believed to be the namesake of John Montagu, 4th Earl of Sandwich, following the claim that he was the inventor of the sandwich. No matter who invented it, we celebrate every kind of sandwich.

ELECTION DAY

This restaurant deserves five stars all around! The service was great. The atmosphere is quaint. But the food is definitely spot on. Everything from the appetizers right through to the dessert was amazing. No complaints had by anyone at the dinner table, and we went with a big group. I would definitely recommend if you're looking for a more luxurious meal.

HOW OFTEN SHOULD YOU CHANGE YOUR OIL?

You should change your oil as frequently as your vehicle's owner's manual suggests, and you can figure out that service interval by becoming familiar with your car's specific maintenance needs. If you are one of the many people who let a windshield reminder sticker govern when they get an oil change, here's our advice to you: Drop that habit.

The reminder sticker rarely accounts for your specific vehicle's actual recommended oil change interval, meaning you could either be neglecting your car's care or spending money on unnecessary service. On top of that, modern oil formulations have improved the quality and durability of the lubricants, making the old three-month/3,000-mile interval overkill for almost every vehicle.

Oil change frequency: Mileage or time intervals?

The either/or strategy with oil changes also depends on how you use your vehicle, so it's best to consider both mileage and time when planning your maintenance.

If you have a weekend car or put very low miles on your vehicle, you'll have to change your maintenance strategy a bit. Robert Sutherland, principal scientist at Pennzoil Passenger Car Engine Lubricants, says that over time, oil becomes contaminated by gases that blow by the pistons, and the longer the oil sits with that contamination, the more it degrades. This is true even (or perhaps especially) if the car isn't driven much. In these situations, you'll want to change your oil at least once a year, even if you've only covered a couple of thousand miles in that time.

Whether an automaker uses an oil life monitor or set mileage intervals, all of them also prescribe a maximum time frame for an oil change. For example, the 2026 Volkswagen Atlas has a recommended oil interval of one year or 10,000 miles - whichever comes first. Since some oil life monitors are more sophisticated than others, the vehicles that employ them will have different time recommendations. You'll also find this information in your owner's manual. That yearly rule is a pretty golden one, however.

AVA & AMARA

Ava and Amara have been with us nearly their entire lives, and we can't figure out why because they are the sweetest and silliest pair you will ever meet. These beautiful girls are 7 months old and completely bonded, so we would like to see them go home together.

Please call our adoption center to request an adoption application. Someone is always available to take care of our resident kitties, to answer your call and set up an appointment with you.

OPEN: TUES, WED, FRI & SAT
FROM 11AM TO 2PM
