ARE YOU AND YOUR PETS GETTING ENOUGH VITAMIN D?

Submitted By
Patsy Nelson
from The Wagging Tail

This cold snap of the past few weeks and the treacherous ice have kept many of us indoors more than usual. I have also been sick for nearly three weeks with a bad cold. I have not been outside to soak up any sun (even though I have photo sensitivity) except for corralling the dogs back inside when they get distracted with barking at something about which only they know. And of course they have their coats on. Today was the warmest it has been, so they are just wearing fleece tops. Even the cats are soaking up the warm sun rays. The sun's rays provide all living things with essential vitamin D which is crucial for calcium absorption and bone health. Without it our bones would become soft, thin, and brittle. It is especially important for people like me who have osteoporosis. Vitamin D also promotes absorption of calcium in the gut, helps prevent involuntary muscle contraction as in cramps and spasms, and reduces inflammation.

Animals need vitamin D for proper calcium and phosphorus metabolism, bone calcification, and for their immune health. Sunlight causes the skin of humans to make vitamin D, which is then converted by the liver and kidneys into an active form. This does not work for dogs or cats. A dog or cat cannot synthesize the sun's rays in the same way. They rely on a proper diet (especially vitamin D3) to maintain overall health, including muscle, cognitive, cell growth, and cardiovascular health. Wild animals, including birds, can use the exposure of the sun's UVB light because it converts to 7-dehydrocholesterol into pre vitamin D3 through the consumption of prey (organs, fat) or from plants. The only way dogs and cats can get enough vitamin D is through diet and supplements.

Feeding quality pet food ensures that your pet gets the needed vitamin D and would not need any additional supplements. In fact, adding unnecessary vitamin D, which is a fat-soluble vitamin stored in the body- could be toxic. It is advised too that if you are giving your pet a home-made diet, the necessary vitamin D should only come from the foods you are using, not from a supplement. Do not ever give a pet a human vitamin D supplement, and if the pet accidentally consumes one call your vet.

The AAFCO advises giving 500 IU/kg to a maximum of 3,000 to dogs of all ages. For cats, the minimum is 280 with a maximum of 30,080. Excess in either cats or dogs can lead to kidney damage, hypercalcemia, vomiting, and diarrhea. The richest natural sources of vitamin D are marine fish and fish oils; one must take care not to overdose. Other sources include freshwater fish, cooked eggs, beef, liver, and dairy for dogs. For cats feed natural fatty fish like Atlantic Herring, salmon, sardines, mackerel, cooked egg yolks, organ meats, beef liver, and small amounts of cod liver oil. No seasonings on any of these foods, especially no onion or garlic.

**ANGLESEA ALEWORKS HOSTED A WING-EATING CONTEST ON
SATURDAY, JANUARY 31ST.**

**THE WILDWOODS' DOO WOP EXPERIENCE MUSEUM
NOMINATED IN USA TODAY'S 2026 10 BEST POP
CULTURE MUSEUM READER'S CHOICE TRAVEL
AWARDS CONTEST FOR FOURTH CONSECUTIVE YEAR**

The Greater Wildwoods Tourism Authority (GWTIDA) announces that the Wildwoods' Doo Wop Experience Museum is once again in the running for Best Pop Culture Museum in USA Today's 10 Best Readers' Choice Travel Awards. The museum's nomination marks the fourth consecutive year it has been included in the national contest. Fans and supporters are encouraged to vote online for the neon-filled Doo Wop Experience Museum. Supporters can vote once a day, every day, until the voting period ends on Monday, February 9 at 11:59 a.m. Winners will be announced on Wednesday, February 18.

"The Doo Wop Experience Museum is the coolest retro-funky museum in the country, and it's an incredible honor to be recognized for the fourth year in a row. The museum is a treasure trove of neon signs, mid-century architecture, artifacts, furniture, and music from a by-gone era in American history, and it fits perfectly in the Wildwoods. Stepping inside is like entering a time machine, where you and your family can experience the very best of 1950s and 60s kitschy Americana," explained John Donio, President, Doo Wop Preservation League of The Wildwoods. In 2025, the Wildwoods gained numerous national accolades, including mentions in multiple USA Today 10 Best Readers' Choice Contest lists, including the Wildwoods Beaches, Boardwalk, Starlux Mini Golf, the Honky Tonk Saloon, and The Madison Resort Wildwood Crest. The Wildwoods beaches were voted the Best Beach in New Jersey in USA Today's 10 Best Readers' Choice Travel Awards Contest 2025 earlier this year, marking the second consecutive year that the Wildwoods' Beaches have been ranked #1 in New Jersey in the USA Today contest. The Wildwoods Boardwalk was also voted the 2025 #1 Best Boardwalk in the US in USA Today's 10 Best Readers' Choice Awards Contest. The Wildwoods, NJ, are renowned for its wide beaches, an iconic boardwalk, and a variety of family attractions. With a rich blend of tradition and modern amenities, the Wildwoods continue to shine as a top-tier family destination. These nominations highlight the Wildwoods as a premier destination for hospitality and entertainment. USA Today's 10 Best provides users with original, unbiased, and experiential travel content of top attractions, things to see and do, and restaurants for top destinations in the U.S. and around the world. Created by a team of local travel experts: a well-traveled and well-educated group who are not only experts in their fields – and their cities – but discriminating in their tastes. These local experts live in the city they write about so the content is constantly updated. Visit www.WildwoodsNJ.com or call 800-992-9732.

GIVE YOUR CAR THE EXTRA ATTENTION IT NEEDS IN FEBRUARY

1. Tires and tread depth. Adverse weather continues well into spring for regions such as Ontario, New England and the Midwest. Make sure your tires are safe for sudden stops and extended travel plans. The freeze-thaw cycle of moisture can expand hairline cracks in tires. Also, lower temperatures reduce tire inflation, which can cause sidewall damage and increase damage from road hazards. Have your service advisor check tread depth, uneven wear and inspect sidewalls for cracks or bulges.
2. Vehicle battery. Long winter days draw more power from your vehicle's electrical system. Freezing temperatures reduce battery capacity, and use of vehicle electrical components increases demand. Have a service professional perform a battery charge test. A weak battery can die overnight and leave your family stranded.
3. Steering and suspension. Snow packed roads can disrupt your wheel alignment. In places with occasional snowfall, ice can also build up around wheel wells and leave your steering wheel stiff on winter mornings. If your vehicle drifts to one side or the other, or if the wheel vibrates, call your service advisor before for an alignment inspection. Poor alignment affects steering safety and increases tire wear.
4. Braking system. Frequent braking in icy environments wear down braking components. Slush or ice buildup in your wheels also affect your vehicle's braking responsiveness. Ask your service advisor to inspect your brake pads and rotors for winter grime. Cold temperatures can thicken brake fluid and undermine your vehicle's braking efficiency.
5. Winter oil change. Don't delay routine oil change service. In cold weather, standard motor oil moves slowly through the engine which can make it difficult to start your car and increase wear on engine components. Ask your service advisor about winter-friendly oil that ensures your vehicle runs smoothly in your region. Lower-viscosity oil circulates easily and helps protect your engine's internal components during winter.
