HONEY-THE WAY IT HELPS PEOPLE-AND THEIR DOGS

Submitted By
Patsy Nelson

Owner of The Wagging Tail 1987 - 2025

I wish I had researched HONEY when I was coughing with a cold for three weeks in January.

BENEFITS FOR HUMANS are surprising: honey has a high concentration of antioxidant and anti-bacterial properties. Medical grade honey can help with wound healing and burns. Honey is a natural aid for coughing and for sore throats (me-January). Honey contains bioactive plant compounds, enzymes, and trace nutrients, which supports bodily functions. Honey is heart healthy, properly controlling bad (LDL) cholesterol and triglycerides, and good (HDL) cholesterol and blood pressure. Recommended dosage is 1-2 tablespoons of honey daily. Especially helpful with digestive issues if taken in the morning on an empty stomach. And apparently, many humans claim that the steady use of local honey reduces their seasonal allergy symptoms.

WARNING! INFANT BOTULISM can be caused by giving Honey to children before they are a year old. It CAN BE contaminated with the spores of Clostridium botulinum which cause a rare life-threatening form of food poisoning.

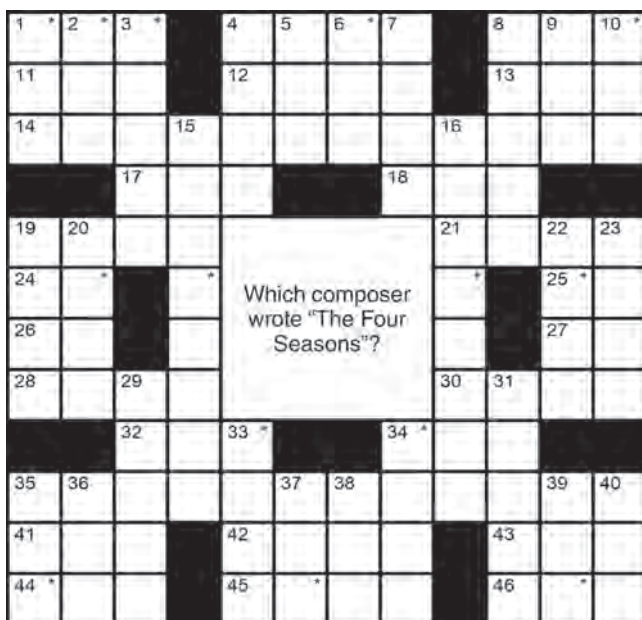

HONEY BENEFITS FOR DOGS: there are numerous positive benefits and two caveats-DON'T GIVE to diabetic dogs or dogs that are overweight as it spikes sugar levels. HONEY should be given no more than twice a week and the amount should not exceed: 2-10 pounds 1/8 to one teaspoon, 11-20 pounds 1/2 to one teaspoon, 51-90 pounds 2 teaspoons, and 1 tablespoon for dogs over 91 pounds. NOT FOR PUPPIES. And only use (local) RAW/UNPROCESSED HONEY.

HONEY is a natural energy booster. And it boosts a dog's immune system with its antioxidants and antibacterial properties, helps relieve coughing, mitigates irritated throats, aides in digestion and joint inflammation-especially older dogs, and suppresses allergic sensitivities. It is advised to remove excess honey build-up on your pets' teeth afterwards by brushing, or giving your pet a crunchy bit of vegetable, or a dental treat/biscuit. Allowing your dog to lick the honey off a plate or spoon would be regarded as a special activity.

A QUOTE from Chicken Soup for the Soul. W. Bruce Cameron wrote in his book A DOG'S JOURNEY- "You can usually tell that a man is good if he has a dog that loves him." USUALLY.

HOROSCOPE

MARCH 5 - 11, 2025

ARIES (Mar. 21-April 20)

Clarity builds as recent decisions begin to show real-world consequences. Professional matters require thoughtful follow-through rather than bold declarations. Refine your approach before expanding further. Precision now creates stronger long-term positioning.

TAURUS (Apr. 21-May 21)

Momentum steadies as practical goals move from concept into structure. Long-range plans demand realistic pacing and attention to detail. Resist the urge to rush visible progress. Slow, deliberate effort strengthens what you're building.

GEMINI (May 22-June 21)

Shared priorities sharpen as conversations reveal deeper expectations. Financial or emotional exchanges benefit from honest clarification. Address gray areas directly instead of assuming alignment. Transparency now prevents future complications.

CANCER (June 22-July 22)

Partnership energy remains active, with focus shifting toward compromise. Differences become easier to navigate when acknowledged calmly. Define boundaries without defensiveness. Mutual respect supports steady connection.

LEO (July 23-Aug 22)

Workflow adjustments demand patience as small inefficiencies surface. Reorganizing habits may feel tedious but proves worthwhile. Protect downtime intentionally to preserve stamina. Strong systems carry you through busy stretches.

VIRGO (Aug. 23-Sept. 23)

Creative confidence strengthens as doubt begins to quiet. Personal interests deserve consistent space within your schedule. Avoid overcorrecting minor setbacks. Balanced focus keeps motivation sustainable.

LIBRA (Sept. 24-Oct. 23)

Domestic conversations require tact and thoughtful listening. Stability grows when expectations are clarified rather than implied. Practical solutions ease emotional tension. Shared understanding restores ease at home.

SCORPIO (Oct. 24 - Nov. 22)

Information arrives that reframes your strategy. Careful observation reveals leverage you didn't see before. Move deliberately rather than dramatically. Subtle shifts yield stronger results.

SAGITTARIUS (Nov. 23 - Dec. 21)

Financial awareness deepens as priorities demand recalibration. Spending decisions benefit from measured restraint. Focus on durability instead of immediate gratification. Practical discipline supports future flexibility.

CAPRICORN (Dec 22.- Jan. 20)

Self-assessment sharpens as responsibilities evolve. Evaluate which commitments genuinely reflect your values. Adjust direction without second-guessing yourself. Confidence grows through intentional refinement.

AQUARIUS (Jan. 21 -Feb. 19)

Inner clarity replaces lingering uncertainty. Quiet moments reveal what needs closure before progress resumes. Let go of outdated assumptions gently. Space created now prepares for new momentum.

PISCES (Feb. 20-Mar. 20)

Collaborative efforts require steadier pacing. Not every idea needs immediate action. Define roles clearly to avoid crossed signals. Collective progress strengthens when expectations align naturally.

3. **SPRING INTO SAFETY: ESSENTIAL VEHICLE MAINTENANCE TIPS AFTER WINTER**

As winter fades and spring approaches, your vehicle needs a little attention to recover from months of cold temperatures, road salt, and rough driving conditions. A quick seasonal checkup not only protects your investment but also improves safety and reliability for the months ahead. Here are a few key maintenance and safety tips to help your vehicle transition smoothly from winter to spring.

- 1. Wash Away Winter Salt**
Road salt, sand, and de-icing chemicals can accumulate on your vehicle's undercarriage and body during winter. If left untreated, they can cause corrosion and rust. Give your car a thorough wash, including the underbody, and consider applying a protective wax to help guard the paint.
- 2. Inspect Your Tires**
Winter driving can be tough on tires. Check tire pressure, which often fluctuates during cold months, and inspect tread depth for uneven wear. If you used winter tires, spring is the time to switch back to all-season or summer tires for better fuel efficiency and handling.
- 3. Check Fluids and Filters**
Cold weather can strain engine fluids. Inspect and top off essential fluids including engine oil, coolant, brake fluid, windshield washer fluid, and transmission fluid. Spring is also a great time to replace the engine air filter and cabin air filter to improve performance and air quality.
