Release the week of March 29 - April 4, 2024

# HOROSCOPE

MARCH 28 - APRIL 3, 2024

**ARIES (Mar. 21- April 20)**

7 am on Monday was the lunar eclipse in the relationship angle of your chart making this a powerful week for releasing the hangers-on whether these are people clogging up your memory bank, relationship tentacles from the past which inhibit your personal growth or simply a judicial prune so that a current relationship can flourish in the future. Take a look at the chords attaching you to others and focus on your own path.

**TAURUS (Apr. 21- May 21)**

Re-assess what's important to you at this time and let go of your time-lines as Mercury will turn retrograde in early April through most of next month requiring adjustment and a pair of eclipses (the first of which is on Monday) suggest destiny plays its hand. In other words, less is more. Allow things to unfold and trust that developments in the air will happen for you when the time is right.

**GEMINI (May 22-June 21)**

A lunar eclipse in your sister air sign of Libra on Monday marks a turning point in your state of affairs. Connecting to all that brings you joy and encourages a creative spark and playfulness is the antidote to all that has been heavy. Choose to identify with your happy twin and begin exploring new places, people and projects.

**CANCER (June 22-July 22)**

A lunar eclipse in the most personal angle of your chart suggests you're encountering a sea-change around home, family and matters that you care about. You may feel that withdrawing into your shell will offer you the safe spot you need and indeed anchoring and stabilising are the best options. However, soon enough you'll see exciting options are percolating. Don't miss out!

**LEO (July 23-Aug 22)**

As a Leo you've a fair idea that you know better than most other people. However with the Libra lunar eclipse lighting up the mind-set angle of your chart you'd do best to open up to things you've never thought of. Letting go of the way things used to be is an art, as is creating mental space so that new links and discoveries can be made.

**VIRGO (Aug. 23-Sept. 23)**

If you've been trying to work out a solution to something, Monday's eclipsed Full Moon is likely to shed more light on the matter. Perhaps you've been focusing on the details and not the bigger picture. In which case, you can begin to explore angles that you have never considered before.

**LIBRA (Sept. 24-Oct. 23)**

The big news of the week is Monday's lunar eclipse in your sign Libra. You've probably been feeling the extra charge and intensity over the past few days and what's coming up or coming to an end will ripple for a while to come. At least it gets you off that Libran fence. Prepared to make important decisions that will propel you forward into living life more on your own terms.

**SCORPIO (Oct. 24 - Nov. 22)**

During eclipse season it's important to jettison what needs to go and embrace the transforming power of the future. Monday's eclipsed Full Moon in Libra signifies it's really time to begin a brand new chapter and release yourself from anything that's been holding you back. You really do deserve more Scorpio.

**SAGITTARIUS (Nov. 23-Dec. 21)**

As Monday's lunar eclipse falls in the people angle of your chart it's likely that others are making a huge impact on you. This is the moment to recognise who is a force for good in your life and where the energies do not feel right. As a new cycle of endings and beginnings is part of the eclipse process the coming weeks will make everything clear.

**CAPRICORN (Dec 22- Jan. 20)**

As Monday's eclipsed Full Moon lights up a highly visible sector of your skies, your direction is being made clear. As a Capricorn you don't necessarily want to be the poster person for a particular issue or movement but you want to let people know your intentions and where you're heading. This actually gives you openings that will help you on your way.

**AQUARIUS (Jan. 21 -Feb. 19)**

This is likely to be a pivotal week with eclipse season starting on Monday's Full Moon. For many water bearers this will help to firm up a decision about directions, projects and places which have long interested you. If something has lost its lustre now is the time to drop it from your playbook. Alternatively, you could decide to go all in on a journey of discovery.

**PISCES (Feb. 20-Mar. 20)**

As sensible Saturn has been in your sign for a whole year now you're getting used to the idea of saying no, having stronger boundaries and closing down those things that clearly won't work for you. So Monday's lunar eclipse with its energy of completion and decision making will help you in the process of confirming or withdrawing from a situation that involves another person and/or finances.

## 15 BEST ACCESSORIES FOR SPRING BREAK ROAD TRIP, PT 1

1. **High-efficiency air filters:** As we begin to head into spring, dust and pollen fill the air. If you don't have the proper car filters, the inside of your vehicle can become a petri dish for allergens. If your car doesn't already have one, add a High-Efficiency Particulate Air (HEPA) filter. These filters are designed to capture even the smallest particles, including allergens like pollen and dust.

2. **All-weather floor mats:** All-weather floor mats are helpful all year long. Rubber mats are easy to wash and help prevent allergens from getting trapped in your car's carpet during spring. Easily remove and wash off to help keep your vehicle's interior clean and allergy-free.

3. **Roof rack or cargo carrier:** If you're traveling with a lot of gear or luggage, a roof rack or cargo carrier provides extra storage space, freeing up room inside the car for passengers to stretch out and relax. This is especially useful for outdoor enthusiasts bringing along bikes, kayaks, or camping equipment.

4. **Portable electric cooler:** Keep drinks and snacks cool and easily accessible with a portable cooler. Look for models that can plug into your car's power outlet or run on battery power for added convenience. Whether you prefer refreshing beverages or healthy snacks, having a cooler on hand ensures you stay hydrated and energized throughout your road trip.

5. **Phone mount:** Safety should come first while driving, and a phone mount can help you stay focused on the road while still having access to GPS navigation and hands-free calling. Choose a mount that securely attaches to your dashboard or windshield and can accommodate your smartphone size.

6. **Car organizer:** Keep your vehicle clutter-free with a car organizer designed to hold essentials like maps, sunglasses, water bottles, and snacks. Look for organizers that hang from the back of the seat or fit snugly between the front seats for easy access by both the driver and passengers.

7. **A "tiny trash can":** Micro trash in your car can seem harmless, but over several days with multiple passengers discarding their waste, it can start to pile up. Tiny trash cans fit in your car's cup holder to collect the little bits of trash that often finds its way to the depths of your car.

8. **Car headrest hangers:** Save space and save time looking for what you need with car headrest hangers. They slip on the backside of seat headrests and offer extra storage space for bags, hats, towels (or blankets), or anything you need out of the way yet accessible.

### THE FIGHT BEGINS

Spring is here. My favorite time of the year. Soon flowers & trees will be in glorious color or showing their potential blossoms. The bees, flies, ants, beetles, fleas, & ticks are in happy release from the relatively warm winter we had again this year. Which is why fleas & ticks, our pets' enemies are going to be in full abundance. Already customers are coming in complaining about ticks.

I suggest that the first thing you do is get a container of yard spray that does up to 5,000 SF., that attaches to the nozzle of your hose, and takes little effort on your part to shower, especially the perimeters of your yard. There are all-natural ones that use essential oils (like clover, lemon grass, cedar, among others). The ones we recommend are by Vet Best, Tropiclean, & Natural Chemistry. These products kill fleas & ticks, and Vet Best also kills and repels mosquitoes. There are stronger products like Adams Plus & Zodiac, which use synthetic chemicals and are not natural so more care concerning pets, birds, & fish is necessary. Caution must be used to not spray on blooms where bees are actively visiting, and not when it's windy. The best time would be very early in the morning or at dusk. But the Adams, for example, kills fleas, ticks, mosquitoes, ants, and crickets, as well as bagworms, aphids, spider mites, gnats, beetles, moles, and other insects that attack our plants, and of course - fleas & ticks, including the Deer Tick which carries Lyme Disease. Most of these products will be effective for 4 weeks. It may be necessary to reapply them monthly for best results. Do apply when you are certain it will not rain for at least 24-hours.

Since it's been a warm winter, I have been applying topical flea products on my dogs & cats non-stop and now will start with flea & tick topicals, plus Heartguard. I don't advise oral pest control because of the dangers of reactions while in the bloodstream. At least with topicals, they only penetrate the dermal oils & can be washed off if necessary. (With dogs like Ebby, oral may be the only way).

You should inspect your pets before, or as they enter your home, if they have been wandering in your yard, or have been taken for a walk where ticks can be lying in wait for the vibration of your pet. Run your hands lightly over your entire pet, and even use a flea comb which will snare the critters before they penetrate the skin. Check armpits and their inner thigh areas too.

Constant vacuuming of all areas of the house, sofas, between cushions, baseboards, closets, will help in controlling fleas. Make sure to empty the vacuum each time (outside in a bag). Spraying a reputable flea & tick spray will get under and behind things and will help wipe out flea populations. If using a fogger becomes necessary, by spraying first, you have increased the effects of fogging by 30-40%. And fog your crawl space too! We have free pamphlets which will help guide you to a safer pet environment.

Thank you for helping a small business stay in business.
