# HOROSCOPE

JANUARY 4 - JANUARY 10, 2024

**ARIES (Mar. 21-April 20)**  
 For ages, you've had certain plans and projects on your mind. But every time you thought you'd got things going, unexpected events derailed those plans. Now that the no-longer retrograde Mercury has moved into practical Capricorn, between events and your quick thinking, things will fall into place swiftly, and magically.

**TAURUS (Apr. 21-May 21)**  
 Having invested considerable time and, in some cases, heart in certain plans, you're in no mood to make changes. However, not only are these inevitable, they're wise. Tempting as it is to put off taking action, don't. The more swiftly you get involved in making them happen, the better things will go.

**GEMINI (May 22-June 21)**  
 Being ruled by the clever, and quick-thinking, planet Mercury, you often enjoy a lively exchange of ideas, especially if the individuals in question disagree. You regard it as more of a sport than a serious discussion. Be aware, however, that others are taking what's said seriously, and could be upset by your easygoing attitude.

**CANCER (June 22-July 22)**  
 As a sensitive water sign, you go to great lengths to avoid raising issues you know will be upsetting to others. At the moment, however, you have no choice. Actually, you've become increasingly aware these not only can't be ignored, frank discussions won't just be timely, they'll be a lasting relief.

**LEO (July 23-Aug 22)**  
 You don't think of yourself as being stubborn. However, not only do others insist you are exactly that, they avoid even mentioning certain changes or new ideas because you'd dismiss these without discussion of any kind. The problem? Actually, once you begin exploring them, you'll discover that several of these are worth considering.

**VIRGO (Aug. 23-Sept. 23)**  
 One of the advantages of being a Virgo is that, often, you'll think things through without even mentioning it to others. This means that when the individuals in question raise their concerns, you'll already have thought things through and may have answers for their questions. If not, you can seek those insights together.

**LIBRA (Sept. 24-Oct. 23)**  
 Thinking through recent discussions, often in detail, comes so naturally that often you're unaware you're doing it. Recently, however, you've had other things to keep track of, in many cases pressing, if not urgent. Ironically, by the time those practicalities are dealt with, the issues in question will have resolved themselves.

**SCORPIO (Oct. 24-Nov. 22)**  
 As an intuitive water sign, you'll often sense when certain arrangements are coming undone, long before those changes are obvious. While, often, you'll say nothing, this once you're encouraged to discuss your feelings with those concerned. Don't be hesitant. Others will find what you raise and, equally, suggest is amazingly helpful.

**SAGITTARIUS (Nov. 23-Dec. 21)**  
 Now that the forthright, and impatient, planet Mars has moved to accent certain financial matters, it's time to turn the ideas you've been discussing into action. The problem? While you're confident they'll work, you're less sure about your ability to deal with tedious details. When the time comes, you will.

**CAPRICORN (Dec 22.- Jan. 20)**  
 When certain plans were made and certain individuals committed to them, you were uneasy, especially about those arrangements being reliable. Despite that, you proceeded. Since then, you've discovered your concerns were correct yet you've learnt so much that, in truth, you've little to complain about.

**AQUARIUS (Jan. 21-Feb. 19)**  
 From time to time, those who know and love you are concerned about what, and who, you're putting first in your life. Yet you think they're missing the point. How will you learn about the world if you don't explore. While you're right, this variety of exploration can distract you from making deeper commitments.

**PISCES (Feb. 20-Mar. 20)**  
 One of your greatest gifts, as a Pisces, is your amazing intuition. While this influences your ability to spot what's going on around you and, equally, what to expect next, not everybody understands this. In fact a few people fear you can tell their fortune. Explain, frankly but tactfully, that there's little likelihood of that.

**NATIONAL LAW ENFORCEMENT APPRECIATION DAY**  
Across the country on January 9th each year, citizens take the lead to show support on National Law Enforcement Appreciation Day. From local, state, and federal, their duties command dedication. The jobs are often thankless and take them away from their families for long hours. Rarely do they know what their days have in store for them. Often law enforcement are the only paid emergency resource a community has. More often they work in coordination with other local, state, and federal organizations to make communities safer.

# Recipe of the Week

## BBQ STRIPED BASS

### INGREDIENTS:

- 1 Striped Bass Fillet, Scaled, Scored & Skin On
  - 2 TBS. Olive Oil
  - 1/4 Cup BBQ Sauce (Your Favorite)
  - Old Bay To Taste
- Garnish:  
Lemon wedge

### PREPARATION:

Preheat grill to medium high heat. Rub the fillet w/ oil & season thoroughly w/ Old Bay seasoning. When the grill is ready, spray it w/ nonstick spray. Place fish skin side down onto the grill. Allow the skin to crisp up & pull away from the grill before touching. Flip the fillet over to another clean prepared part of the grill. When the fish is almost done, flip it back over (skin side down) & brush flesh side w/BBQ sauce. Cover grill w/ lid & allow fish to finish cooking through. Plate & serve w/ lemon. Enjoy!

## KEEP WINTER GRIME FROM MAKING YOUR VEHICLE GRIM

In winter, snow and slush blankets the streets and our vehicles become the unsung heroes battling through the elements. However, the aftermath of winter driving often leaves cars covered in a stubborn layer of grime, salt, and debris. But removing your car's winter grime isn't just about making your car look good—it's preventative maintenance to avoid permanent damage to your car. "It's important to remove that gray grime, even in winter, because the longer it sits on your car, there is a greater potential for damage and even permanent damage," says Mike Pennington, leader of global training at Meguiar's. Below are a few helpful tips to protect and clear your car of winter grime:

- **Invest in a pressure washer**, this will aid in keeping your car clean by allowing you to get up in the car's undercarriage, door jams, etc. Caution: allow for at least one inch between your car's surface and the pressure washer to not strip the paint.
- **Acquire a good set of high-quality brushes**. There are specific, different brushes for the body of your car and the wheels so you can clean the wheel wells, lugnuts and inner barrels.
- **Use a ceramic spray wax for harsher winter weather**. Find time on a sunny day and use this time to do a spray wax after washing your car. Think of it as a booster wax. It helps to boost protection during winter.
- **Purchase a bag of microfiber towels and a microfiber mitt**. Opt for microfiber wash mitts for a gentle yet effective cleaning experience. These mitts are designed to capture and lift dirt without scratching the paint. Follow up with microfiber drying towels to prevent water spots and leave your car's surface streak-free.
- **Get a clay bar kit**. To eliminate embedded contaminants that regular washing might miss, a clay bar kit is indispensable. It helps remove stubborn grime, tar, and industrial fallout, leaving your car's paint smooth and ready for polishing or waxing.
- **Use wheel cleaner**. Don't forget about your wheels. Winter takes a toll on them, with salt and brake dust accumulating in every nook and cranny. Invest in a specialized wheel cleaner to break down these contaminants and restore your wheels to their original shine.
- **Apply a quick detailer**. A quick detailer is perfect for touch-ups between washes. It not only adds a layer of protection but also enhances the shine of your car's exterior. Look for a product with UV protection to safeguard your paint against the sun's rays.
- **Use a spray-on wax or sealant**. After a thorough cleaning, applying a spray-on wax or sealant adds an extra layer of protection to your car's paint. These products provide a hydrophobic barrier, making it harder for dirt and grime to adhere and ensuring your car stays cleaner for longer.

Winter is different for everyone. But it doesn't change the protection needs for your car and the frequency you should clean your car during winter. It's best to get on a routine that fits well for your life and where you live.

## WELCOME TO THE NEW YEAR 2024

Submitted by Patsy Nelson  
from The Wagging Tail

In many ways I hope it will be a better year for pets and people alike. Wars kill people, innocent and otherwise, and certainly a multitude of cats, dogs and other pets which count on our sanity to protect them. Many customers have lost their beloved pets this year, and especially during the recent holiday. My heart goes out to them all. And then we are dealing with a poor economy which makes it even more difficult to feed quality food that our customers' pets have thrived on.

If you read my articles, you know how I stress dressing your pet in colder weather. If you put a jacket or sweater on, so should your dog who lives with you in a heated home. If you do not, you are subjecting your pet to the onset of arthritis and joint problems. Because I feel so concerned about this, we sell our jackets and fleece tops below what the manufacturers want me to sell them for. I am more interested in protecting your dog than in making more profit. We also are collecting coats and sweaters and have donation bins for those who are not able to buy a coat or sweater for their dog. I even put a sweater on one of my older cats who has some medical issues and is getting thinner.

I read an article in the Paw Prints monthly newspaper, which my dear deceased friends, Carol and Tom Ruck compiled and distributed for all of us to learn from and enjoy. I used to write an article for them each issue. One of the pieces I liked was from a man who had a poop pick-up business. And I think about his article every time I go out to pick up poop in my yard. What stuck out for me was his helpful advice that it makes it easier to see the poop when it is cloudy out. I have found that to be spot on. (Funny the things that stay in one's mind.) My all-time poop scooper favorite is the two-piece rake and shovel set by Four Paws. It lasts outside for years. And it has multiple uses like picking up wild yucky mushrooms, or leaves and small sticks. And you can pick up lots of poops in a single walk around.

When you have a pet that is itching a lot, and not from fleas or mites, consider all situations, diet- including treats, choice of shampoos, yeast problems, heat in the house, fabrics the pet may be in contact with, airborne allergens as in smoke or cleaning supplies, dust mites if you are not a diligent duster, even grass and mold. You can check out my articles on Facebook.

If your dog lets you brush its teeth, then it may let you rub gel along the gum lines in its mouth. Gel works better, and it is easier than brushing. One must withhold food and water for 30 minutes before and after application. It may sound like a big deal, but it really isn't. Our dogs sleep with me so I do it early in the morning when I first wake up. Then I get back to bed and rest or read for the thirty minutes needed after application. Some customers take their dogs from a rest period when they know that the dog or dogs have not had any food or water and then take them for at least a 30-minute walk.

Many of you know that I visited The Fromm Food company in Wisconsin. My husband and I were invited along with about 8 other stores from across the country to spend a weekend gratis, in a wonderful little town. One day we were bussed to their plant where they made the rye food. We had to wear booties upon entering, and I was so impressed with how immaculately clean the facilities were. Since that time, they have opened their own cannery as well. We also had a few learning seminars. One was on good gut health. If your dog is a grazer, that is usually because the meal is not very appetizing, and feeding the same kibble protein can eventually cause allergies. Whatever dry food you feed, imagine if you try to eat crackers or a beer pretzel without washing it right down. You need to add as much COOL water as the dog can handle. In other words, you want to wash the food right down

## WALK YOUR DOG MONTH

January is Walk Your Dog Month. Get up off that sofa, get moving and don't let those sub-zero winter temperatures drag you down. Dogs need plenty of exercise throughout the year and the best way to keep them active in winter is to take them for regular walks. Even a short walk around the block on a cold day makes a big difference. So, begin this year with a pledge - better health for you and your dog!

### HISTORY OF WALK YOUR DOG MONTH

Walk Your Dog Month is a perfect time to blend exercise with bonding time for you and your pup. The Association of Pet obesity Prevention released a clinical study in 2017, stating that 56% of dogs in the United States are obese.

That equates to over 50 million dogs across the country. A statement declared that "The number of pets with clinical obesity continues to increase. Clinical obesity results in more secondary conditions such as arthritis, high blood pressure, kidney disease and certain forms of cancer. Pets with obesity also have reduced quality of life and short life expectancy."

Regular walks and exercise can help control your dog's weight and limit the chances of them becoming obese. January may seem like a cold month to be placing emphasis on dog walking, but that's why it is the right time to do it. Your dog needs walking all year round and if you can do it in January, then you can do it all the time.
