Release the week of April 19 - 25, 2024

HOROSCOPE

APRIL 18 - APRIL 24, 2024

ARIES (Mar. 21- April 20)
Mercury's retrograde through your sign continues to provide illumination on what needs to stay and what needs to go particularly in your relationship patterns. There's a sense that you're on the verge of a big breakthrough. It comes at the weekend with the 'lucky stars' union between Jupiter and Uranus coupled with a power move between the Sun and Pluto.

TAURUS (Apr. 21- May 21)
The last time Jupiter and Uranus smooched in your sign was 1941! This is a slice of celestial extraordinaire guaranteed to lift your sights so you can express your fullest potential. Taurus season begins on the 19th with the Sun quickly plugging into passionate Pluto. Nothing is by halves with this lot upstairs.

GEMINI (May 22-June 21)
Taurus season brings the Sun to a reflective sector of your skies. Less talking, more thinking. This isn't such a bad thing as high impact aspects are downloading. Give yourself time to assess what you really want as this year is all about manifesting those perfect opportunities.

CANCER (June 22-July 22)
It probably seems you're being winkled out of your comfort zone as life is changing in unexpected ways, pulling you in new directions and closing old doors. The speed and intensity of events is startling, yet true friends reveal themselves to be surprisingly supportive of you breaking with the past.

LEO (July 23-Aug 22)
You appear to be at a junction point which asks for crucial decisions. Obvious choices are easy to make. However you're also encountering closure on elements of your life to which you've been hugely attached. Letting go in order to allow the new is a necessary step.

VIRGO (Aug. 23 -Sept. 23)
Few people realise how much you've been longing for a new pathway in life. As you're so good at maintaining the status quo you make it look as if you're perfectly happy to preserve it. So it will come as a shock to some that you're embracing change as your new best friend.

LIBRA (Sept. 24-Oct. 23)
As the Sun enters your zone of financial relationships and you're edging closer to the grand union of lucky Jupiter and breakthrough Uranus in the same area you feel there's a lot opening up. Easy does it. As a Libra you want to move into these opportunities with the minimum of upheaval and disruption.

SCORPIO (Oct. 24 - Nov. 22)
April's celestial earthquakes are still pulsing and as a Scorpio you're just about to move into Taurus season which hosts the spectacular twosome of Jupiter and Uranus in the relationship zone of your chart. Time to shift position in order to take advantage of what's on offer in settings ranging from business to personal.

SAGITTARIUS (Nov. 23-Dec. 21)
This is take-off time as your ruling planet Jupiter is gearing up for cosmic fusion with ground-breaking Uranus over the weekend of the 20th/21st. Meanwhile you're examining your options – some of which hold a huge amount of promise. The trick is to organise yourself so that you have a carefully prepared space which provides maximum support for their success.

CAPRICORN (Dec 22.- Jan. 20)
As the Sun takes up residence in your happy place and the celebratory vibes of Jupiter and Uranus can be heard in the distance you need to spend this week in the zone of quiet confidence. You've come a long way. Many Capricorns have felt they have been asked to move mountains this month, let alone climb them! There are more hikes ahead. But for now, enjoy the view!

AQUARIUS (Jan. 21 -Feb. 19)
The celestial background to April has pushed you into your discovery zone – some of which has been thrilling, other parts not so much! Now that the Sun is moving into the most personal angle of your chart the big requirement is to feel at home within yourself and also where you live. However, many water bearers are feeling the call to move something very different as Jupiter gets together with change-maker Uranus. It is a case of 'whereto now?'

PISCES (Feb. 20-Mar. 20)
As a Pisces you are one of the most adaptable signs – able to fit in wherever you find yourself. However, the emphasis now is on finding like-minds as you are realising that you do in fact need the stimulation and affirmation. This requires you to reach out in new directions and to seek out 'the thinkers' who reflect your own values. Once you do, you'll see they were looking for you too.

Gymnastics Competitions to be held at the Wildwoods Convention Center April 20 and 21

The Wildwoods Convention Center welcomes the IGL Beach Classic on Saturday, April 20, and the NGA Eastern States Championships on Sunday, April 21. Talented athletes will compete on the floor, balance beam, uneven bars, and vault. The competitions will be choreographed to music and prizes will be awarded to the top finishers.

Competition times are as follows: Saturday, April 20 from 9 a.m. to 5 p.m.; and Sunday, April 21 from 9 a.m. to 3 p.m. Times are subject to change. An admission fee of \$20 will be charged at the door on the days of the competitions.

The mission of IGL is to cultivate well-rounded, vibrant young athletes within a nurturing competitive environment, preparing them to be tomorrow's leaders. Their vision is to foster a long-lasting journey, with the goal of retaining gymnasts in their competitive program for a decade or more. Whether a seasoned competitor or a newcomer to the gymnastics world, IGL events provide a platform for all to showcase their skills and spirit.

SPRING TIPS FOR A HEALTHY VEHICLE, PT 1

Since it's National Car Care Month, now is the perfect time to show your car just how much you care. Here are some simple yet meaningful ways to go the extra mile in caring for your vehicle. Car care tips that go the extra mile:

- Car inspection. The tough winter months can be extremely harsh on a vehicle. Don't let those winter issues become bigger problems in spring by scheduling a multi-point inspection. Bring your vehicle to your trusted service advisor for a spring inspection, so they can identify small problems before they become expensive repairs.
- Alignment (potholes, road obstructions, curbs). As winter's snow and ice begin to melt, the spring season reveals unwanted landmines on the road, including divots and potholes. Hitting a pothole, even at low speeds, can be damaging for your tires and also affect your car's handling and alignment. While drivers make the effort to avoid potholes, oftentimes they are unavoidable. Because of this, it's a good idea to have your car's alignment checked by a professional technician. Proper wheel alignment is crucial for ensuring even tread wear on your tires, optimal steering control and handling, and maximum fuel efficiency.
- Check for winter damage to your tires. After the winter season, look for signs of wear and tear, damage, or uneven tread wear. Tires are an investment in your family's safety, and a set of new treads are crucial when planning your next excursion. Ask your advisor to help recommend the right tires for the kinds of spring and summer outings you are planning. Make sure your tires have the proper inflation. Improper inflation can lead to uneven tire wear or potentially blowouts. Tires lose up to 3 PSI per month. And always be sure to inspect your spare tire as well.
- Test your battery. Have your battery tested by a professional to ensure it's in good condition. Fluctuations in temperature often provoke issues with car batteries, especially during colder weather, which can quickly deplete battery power. Listen to your vehicle when it starts in the morning. Does it struggle to turn over? This might be a sign your battery is about to die.
- Do you hear squeaks and squeals coming from your wheel wells? Test your vehicle brakes to make sure they are in good condition. If you notice a high-pitched whine, have your brakes inspected promptly. Also, if your brake pedal goes all the way to the floor, go straight to your service center. If the brake system isn't responding promptly, there could be a leak in the brake lines. Have your service advisor check the brake pads, rotors, and brake fluid levels as well.

YOU LOVE YOUR DOG SO PROTECT YOUR DOG WHEN TRAVELLING

Submitted By
Patsy Nelson
from The Wagging Tail

A customer's appreciation had me resubmit this article because too many pet parents are not securing their dogs. It is so easy and requires very little investment to ensure your beloved pet's safety. The customer could not thank me enough for the common sense advice that I gave in my article that she read in the Jersey Cape Magazine. This magazine is very generous in the amount they charge me to show my ad and in the generous space they give me to advise pet parents to better care for their pets. Some customers still do not realize that I write an article every week, or if time does not permit due to my working-at-the-store schedule, I will reprint a former article especially if it may have been of a serious nature. One such article was on the dangers of sand impaction. Articles can be found on our Facebook page. The article about which the customer referred was an easy way to secure a pet in a car. I often follow my customers outside(stalking?) if they are walking their dog back to their car, and especially if they have the leash attached to a collar and not a harness. One such dog was on the floor of the passenger seat. "How do you keep your dog safe while you are driving?" I usually ask. She may have said he would be okay, or she was only going a short distance, or any number of excuses for not having him attached and secured. He was wearing a harness, so I opened the passenger door (presumptuous) and took his leash, looped it around the headrest, got him up on the seat beside her, and hooked the leash to the harness. "This way" I said, "he won't be thrown into the dashboard if you have to suddenly stop." I told her that if she had an extra leash, she could leave it permanently around the headrest and then just hook him to his harness each time she took him in the car. I have seen customers attaching to the collar and that is beyond scary. NEVER DO THAT! that is a sure way to do permanent, if not fatal injury to your dog's trachea, esophagus, and/or neck. Imagine driving 60 mph on Route 55 when suddenly a deer runs in front of your car. There is no way to avoid impact. You are wearing a seatbelt, and so is your husband and your grandchild. What about your dog? Having read my article, the dog was secured by his harness and even though all the airbags were deployed, the dog was not injured. All survived without much harm, except for the car and the poor hapless deer. Even now I get goosebumps hearing her awful experience and her gratitude for my article's message saving the life of her dog. In retrospect, because the dog was well-secured, he did not become a projectile which could have fatally-injured someone in the car. We also carry seatbelt attachments for easy buckling from harness to seatbelt lock.

THIS IS NOT A GOOD IDEA!

Thank you for helping keep a small business in business. Happy warm weather.
