## MEGAESOPHAGUS IN CATS AND DOGS

Submitted By  
**Patsy Nelson**

Owner of The Wagging Tail 1987 - 2025

This is a serious digestive disorder which can affect either cats or dogs. The esophagus, the tube which connects the mouth and the stomach, enlarges to the point that muscular contractions needed to push the food into the stomach are significantly reduced. Consequently, food and/or water pools and overloads the esophagus and results in regurgitation. The difference between regurgitation and vomiting is that vomiting involves stomach contractions and contains stomach/intestinal matter along with nausea whereas regurgitation is a passive release of undigested food or liquid shortly after consumption. Other symptoms besides regurgitation are weight loss (obviously not enough food is entering the stomach), bad breath, significant salivation, and possible gurgling sounds emanating from the throat. The biggest concern, however, is the potential for Aspiration Pneumonia. This can occur when a pet regurgitates and accidentally inhales the substances and it goes into the lungs. (The biggest fear when severely intoxicated people fall asleep is that they may choke on their own vomit.) Pets may show signs in coughing, fever and breathing difficulties.

There is some mystery as to the causes of Megaesophagus, but the most frequently cited are autoimmune issues like Addisons disease (which weirdly both Zoey and Ebby have) and Hypothyroidism. Obstructions like bones, scar tissue, or tumors need to be checked. Neuromuscular Issues causing Laryngeal Paralysis are exposure to lead, botulism, tetanus, and tick bites. All can lead to flaccid esophageal muscles. Megaesophagus is less common in cats with most cases affecting Siamese cats. In dogs the breeds generally affected are German Shepherds, Great Danes, Labs, Miniature Schnauzers, and Irish Setters.

Pets with Megaesophagus need to be fed in a begging position (see picture of a Bailey Chair) in small amounts of liquified food and kept upright for ten-thirty minutes before resuming normal activity. Medications may include antacids, and possibly Viagra (Sildenafil). Luke is a 90-pound 7-year-old Catahoula leopard belonging to my good friend, Pam. Luke began showing signs of digestive stress in 2023 but was not officially diagnosed until 2024. The first vet did not take x-rays and prescribed nausea medicine and anti-biotics.

Luke's next visit after problems continued resulted in proper x-rays and diagnosis, but the vet suggested taking him to Red Bank for more testing which would have included anesthesia. Pam decided to take the x-rays to another vet (extraordinaire) who agreed with the findings of the second vet and concurred that there was no need to go to the Red Bank facility in Mount Laurel. Luke is on Viagra, and he is doing quite well.

For Bailey Chairs <https://share.google/42fZU6WR2evqkYIkX>

# HOROSCOPE

MARCH 12 - 18, 2025

**ARIES (Mar. 21- April 20)**

Momentum builds as lingering questions begin to resolve. Professional conversations may shift toward practical next steps rather than speculation. Focus on what can be executed now instead of revisiting past decisions. Measured progress strengthens confidence.

**TAURUS (Apr. 21- May 21)**

Long-term plans move closer to reality as details fall into place. Discussions tied to travel, education, or growth feel more constructive this week. Stay patient with timing while refining your approach. Consistency keeps opportunities moving forward.

**GEMINI (May 22-June 21)**

Financial or shared responsibilities continue evolving as new information surfaces. A clearer understanding of expectations helps reduce uncertainty. Address practical concerns directly instead of postponing them. Balanced agreements support long-term stability.

**CANCER (June 22-July 22)**

Relationship dynamics shift toward cooperation and renewed understanding. Honest conversations allow lingering misunderstandings to soften. Listen carefully before responding. Mutual patience strengthens trust and emotional balance.

**LEO (July 23-Aug 22)**

Daily responsibilities settle into a steadier rhythm as recent adjustments begin working. Small improvements to routines make larger goals feel manageable again. Stay organized and protect your energy. Consistent habits support lasting productivity.

**VIRGO (Aug. 23-Sept. 23)**

Creative interests regain momentum as confidence grows. Ideas that felt uncertain recently begin to feel worth pursuing again. Give yourself room to experiment without demanding perfection. Inspiration thrives when pressure eases.

**LIBRA (Sept. 24-Oct. 23)**

Home life moves toward calmer ground as communication improves. Practical decisions about shared responsibilities bring clarity. Focus on solutions rather than revisiting old frustrations. Stability returns through thoughtful compromise.

**SCORPIO (Oct. 24 - Nov. 22)**

Conversations carry greater significance as plans move toward action. Details matter more than assumptions this week. Ask direct questions and listen carefully to responses. Strategic patience strengthens your position.

**SAGITTARIUS (Nov. 23-Dec. 21)**

Financial priorities shift slightly as new expenses or opportunities emerge. Practical planning keeps stress manageable. Evaluate where resources are best invested. Thoughtful budgeting protects long-term goals.

**CAPRICORN (Dec 22.- Jan. 20)**

Personal direction becomes clearer as confidence replaces hesitation. Responsibilities may increase, but they arrive with stronger support. Stay focused on what you can control. Steady leadership earns respect.

**AQUARIUS (Jan. 21 -Feb. 19)**

Reflection continues to reveal useful insights about recent decisions. Allow yourself space to process before rushing forward. Quiet clarity often arrives when pressure eases. Patience prepares you for the next chapter.

**PISCES (Feb. 20-Mar. 20)**

Group efforts begin showing tangible progress as roles settle into place. Collaboration feels easier when expectations are openly discussed. Offer encouragement while maintaining realistic boundaries. Shared success grows through balanced participation.

- 1/2 cup Shredded Gruyere Cheese

**PREPARATION:**

Preheat oven to 325°. Gently line a detachable ring mold cake pan with the pie dough. Do not spray the pan. The dough will come up the sides of the pan, just be sure to gently press it to the sides and bottom. Gently dock the dough with a fork. Bake at 325° for 5 minutes. Remove from oven and set aside. Raise oven temperature to 350°. Whisk eggs thoroughly in a bowl with parsley, seasoned salt and pepper. Layer the potatoes on the bottom of the pie shell. Distribute onions, bacon and cooked sausage evenly over the top. Pour egg mixture over that slowly. Do not go over the top edge of pie dough. Finally, cover with cheese and bake to an internal temperature of 160°. Remove from oven & place on the range top for 5 minutes. Release the ring and cut pie wedges. Enjoy! *Hint: You can do many variations of this with all kinds of ground meats.*

### SPRING INTO SAFETY:

#### ESSENTIAL VEHICLE MAINTENANCE TIPS AFTER WINTER

##### 4. Test the Battery

Winter temperatures are hard on car batteries. If your vehicle struggled to start during the colder months, have the battery tested. Clean any corrosion from the terminals and ensure the charging system is working properly.

##### 5. Inspect Brakes and Suspension

Potholes and icy roads can stress your vehicle's suspension and braking system. Listen for unusual noises, vibrations, or pulling while braking. If you notice anything unusual, have a professional inspect the brake pads, rotors, shocks, and alignment.

##### 6. Replace Wiper Blades

Snow, ice, and freezing temperatures can damage wiper blades. Spring rainstorms demand clear visibility, so replacing worn wipers and topping off washer fluid is a quick but important safety upgrade.

##### 7. Check Lights and Safety Equipment

Make sure all exterior lights—headlights, brake lights, turn signals, and hazard lights—are working properly. It's also a good time to refresh your emergency kit, removing winter-specific items and adding spring essentials like rain gear and roadside safety tools.

##### The Bottom Line

Seasonal maintenance doesn't have to be complicated, but it can prevent costly repairs and improve driving safety. Taking an hour to inspect and refresh your vehicle after winter ensures it's ready for spring road trips, daily commutes, and everything in between.

A little preventative maintenance now can keep your vehicle running smoothly—and safely—through the warmer months ahead.
