SOME MORE DOG BEHAVIOR ISSUES AND TECHNIQUES TO HELP RESOLVE THEM

Submitted By
Patsy Nelson

Owner of The Wagging Tail 1987 - 2025

It is not uncommon for puppies to get a little aggressive when you play with them. They have those sharp baby teeth which wreak havoc on tender human skin, especially with older adults. Not to mention their sharp nails if they are not smoothed well with a Dremel. You can file them with a soft cardboard nail file to which you can easily accustom pups at a young age. A soft nail file does not scare them and can keep those nails smooth. Keep one by the sofa and get in the habit of checking the nails frequently and filing during those nuisance commercials. If your puppy does not have a sibling to play rough with, or another dog in the household to play with, then you are the target of all your puppy's extra energy. No amount of walking or throwing objects takes the umph out of a dog like playing with its own species. Never encourage your dog and teach your children as well to bite at the clothing you have on. You must teach the puppy that human skin is very sensitive, and he must learn bite inhibition. Only use your hands or bare skin so that you can estimate how hard the biting is. Even when the pup is playing with another dog too roughly it can result in its rejection. If he bites too hard, say a loud "Ow!" refuse to engage with the dog for 5 or 10 minutes, or place the dog in a time-out situation unless you think that handling him would account as a reward.

Enrolling your dog in puppy kindergarten, or older puppies in beginner classes, can help your puppy to learn other activities, like sitting, staying, "leave it" and progressively more commands, that will help with your control and give your puppy stimulation and mental activities. In the meantime, you can work on the "sit" by showing your puppy a special training treat (even cheese, chicken, or sliced microwaved or baked hot dog.) Hold it over his head so he will lean back to get it. AS SOON AS he sits, say "good sit" touch his collar and give him the reward. The collar part is important because you want your dog to get used to you handling his collar in case you need to grab it in an emergency, or when putting on the leash. Some dogs need to be desensitized when handling their collar. Ebby still sometimes reacts with uncertainty. With young puppies repeat the activity in short sessions during the day until it is very automatic. Then limit the treat-giving as often but always praise. Another tool especially for more aggressive attitudes is to fit your puppy or dog with a GENTLE LEADER, an excellent easy method to humanely get control and immediately become the ALPHA in the hierarchy.

I was lucky to have participated in a seminar in Pennsylvania with one of the premier dog behaviorists, Ian Dunbar. If you would rather try on your own instead of enrolling in classes like the CAPE MAY COUNTY DOG OBEDIENCE CLUB, Mr. Dunbar has a well-received training course and video available SIRIUS PUPPY TRAINING or DOG WISE, (www.dogwise.com) on YouTube. DOGS TRAVEL HUNDREDS OF MILES DURING THEIR LIFETIME RESPONDING TO SUCH COMMANDS AS "COME" AND "FETCH."

HOROSCOPE

APRIL 23-29, 2026

ARIES (Mar. 21-April 20)

Pace matters more than force this week. You may feel ready to push something forward, but timing will respond better to patience than pressure. Let things develop without rushing the outcome. Control isn't the advantage you think it is.

TAURUS (Apr. 21-May 21)

A decision you've been sitting on becomes harder to ignore. The answer is already clear—you're just weighing the comfort of staying the same. Choose what actually supports you long-term. Stability should feel solid, not limiting.

GEMINI (May 22-June 21)

Your focus sharpens around what's worth your time and what isn't. Distractions lose their appeal when something more meaningful takes priority. Stay selective with your energy. Not every opportunity deserves your attention.

CANCER (June 22-July 22)

You're more aware of your own needs this week, and that clarity shifts how you respond to others. Instead of overextending, you may find yourself pulling back in small but important ways. That adjustment restores balance. Protect your energy without apology.

LEO (July 23-Aug 22)

Something behind the scenes begins to make more sense. You may connect dots that others haven't noticed yet. Keep your observations to yourself for now. Quiet awareness gives you an edge.

VIRGO (Aug. 23-Sept. 23)

A conversation or connection helps clarify your next move. You don't have to figure everything out alone this week. Let input refine your thinking without overriding your instincts. Collaboration works when it stays grounded.

LIBRA (Sept. 24-Oct. 23)

Attention shifts toward direction and responsibility. You may be asked to step up in a way that requires confidence rather than consensus. Trust your judgment. Not everyone needs to agree for you to be right.

SCORPIO (Oct. 24-Nov. 22)

Something requires a deeper level of commitment, whether emotional, financial, or personal. You can't stay halfway in. Decide where you stand and move accordingly. Clarity strengthens your position.

SAGITTARIUS (Nov. 23-Dec. 21)

Partnerships come into focus, and not just romantic ones. You may see more clearly who matches your energy, who drains it and where a conversation needs honesty instead of charm. Mutual respect matters more than easy chemistry right now.

CAPRICORN (Dec 22.- Jan. 20)

Someone else's expectations may challenge your current plan. Instead of adjusting immediately, take time to assess what actually makes sense for you. Compromise should not come at the cost of your priorities.

AQUARIUS (Jan. 21-Feb. 19)

Small details demand more attention than usual. What seems minor now could create larger issues later if ignored. Stay organized and deliberate. Precision keeps everything running smoothly.

PISCES (Feb. 20-Mar. 20)

Your instincts pull you toward something that feels more aligned, even if it doesn't fully make sense yet. Follow that pull carefully. Not everything needs immediate explanation to be worth pursuing.

NATIONAL PRETZEL DAY

National Pretzel Day on April 26th recognizes one of America's favorite snacks. A bag of nice crunchy, salty pretzels or a big, warm, soft, cinnamon pretzel is the question of the day. Either one is an excellent choice. Today, the average Philadelphian consumes about twelve times as many pretzels as the national average. Pennsylvania is the center of American pretzel production for both hard and soft pretzels, producing 80% of the nation's pretzels. The annual United States pretzel industry is worth over \$550 million. The average American consumes about 1.5 pounds of pretzels per year. Philadelphia opened a privately run "Pretzel Museum" in 1993. Hard pretzels originated in the United States in 1850.

NATIONAL PRIME RIB DAY

National Prime Rib Day annually recognizes this special meal favorite on April 27th each year. Sometimes known as the "King of Meats," it's a choice cut from one of the eight prime cuts of beef.

NATIONAL PET PARENTS DAY

On April 27, National Pet Parents Day recognizes the pet parents who go the extra mile to care for their fur babies.

NATIONAL DEVIL DOG DAY

On April 27th, enjoy a treat in the name of National Devil Dog Day! The day honors the service members dubbed with the nickname and the devilish snack cake. Drake's first started making the cakes in 1926.

CAR CARE MONTH: POST-WINTER TIPS FOR BETTER PERFORMANCE

8. Tire inflation. Underinflated tires can cause blowouts and accelerate tread wear. Improper inflation can lead to uneven tire wear or potentially blowouts. Tires lose up to 3 PSI per month.
9. Wheel alignment. Proper alignment helps prevent uneven tire wear and improves steering.
10. Wiper blades. Replace blades worn out by winter driving so you have improved visibility for spring travel.
11. Battery strength. Do your windows roll up slowly and your vehicle lights appear dim? Does your vehicle have difficulty turning over in the morning? Cold weather temperatures drain battery power without warning.
12. Cabin air filter. Reduce pollen from spring blooms from entering your passenger cabin through the climate control system. Replace your vehicle's cabin air filter to help filter out allergens.
13. Windshield chips and cracks. A small crack can grow and turn into an expensive window replacement.
14. Spare tire. Don't let a damaged spare tire sideline your family when you are traveling this spring. Check for cuts, tread depth and abnormalities.
15. Wiper fluid tank. Spring rains can coat your windshield in grimy slosh. Pollen can coat it in yellow. Top off the reservoir to improve visibility and safety for your weekly errands and daily commute.
16. Headlight brightness. Look for blown-out and dull bulbs. They're an inexpensive way to improve visibility and safety, especially if you plan to travel to remote areas or places without streetlights. Do you see any cracks in the headlight lens? Cracks in headlight housings can reduce brightness, allow moisture inside the housing and lead to corrosion.
